Wushu, which means martial arts in Chinese, has grown in popularity throughout Turkey.

"We are committed to martial arts and there is a real interest in wushu, which incorporates different techniques. Our athletes are (21) ambitious," Serkan Bakir, a well-known martial arts instructor and competitor, says.

Bakir explains that amid the global health crisis, wushu, which emphasizes quickness, power and relaxed movement, provides an excellent opportunity for people who wish to (22) strengthen their immune and cardiovascular systems.

"There are many variations of Chinese martial arts. Taichi, for example, can be performed by a toddler or someone who is 85 years old. It can help people stay in (23) good shape. Everyone can benefit from it, especially when we have to stay fit to fend off the coronavirus," he notes.

Standard wushu training concentrates on a core curriculum of eight major styles, whereas modern wushu consists of a variety of styles which can be (24) divided into bare-handed and weapon play.

The team consists of bare-handed style athletes and most of them have won a local, national or an international title as part of the Turkish national team.

Beyzanur Karakaya, a 22-year-old woman, is currently (25) seeking a master's degree in sports education at university in Ankara. Her goal is to improve in her field and eventually travel to China to master the art of wushu, which she has practiced for about 10 years.

"I have never been to China or competed against a Chinese athlete, but if I have the opportunity, I would love to go there and train with masters. That would be wonderful," she says.

Summary

Some people believe that women are better drivers than men.

However, others think that women make worse drivers. In one survey of 3,000 male drivers in the UK, most felt they were better drivers than women in their lives. The idea that women make worse drivers is a stereotype. It comes from a time when women drove less than men. And driving was seen as a man's responsibility. There are certainly different views on this controversial question although there are a number of reasons why a woman's personality makes her a more competent driver. (26) Firstly, women are more patient and polite towards other road users, such as pedestrians and cyclists. In stressful situations, they are more likely to stay calm and less likely to be involved in road rage incidents. (27) Secondly, female drivers are more cautious and therefore take fewer risks, for instance, when overtaking. (28) Thirdly, they are more responsible so they tend not to drive when tired or after drinking alcohol.

On the other hand, many people argue that women cause accidents, because they can be indecisive or react slowly, because they lack confidence. (29) In addition, they are easily distracted. For example, by children in the car, scenery or other drivers, (30) research also shows that women find map reading more difficult than men and can have problems with the difference between left and right. Despite the fact that women have more accidents, insurance is often cheaper for them, because the accidents tend to be minor. In particular, women have more accidents when parking. This is because women often have poor spatial awareness. In contrast, men tend to have more serious accidents.

To sum up women, make safer drivers than men because of their personality. This is supported by the fact that women have fewer, serious accidents and pay lower insurance premiums than men.

Overall, it is clear that women are less competitive and aggressive than men behind the wheel. And therefore, better drivers.

Section A

71. 成功者不会毕生致力于这样一种概念:想象自己应该成为何种人。相反,他们就是他们自己,因此,他们不会费神去装腔作势,故作姿态,摆布他人。他们明白:爱与装爱,傻与装傻,懂与装懂,真博学和假博学之间是有区别的。成功者无须躲在面具后面。成功者不会假装无助,也不会怨天尤人。相反,他们承担起自己生命的责任。

句式分析

1. 第一句为翻译难点。难点句式为 *dedicate...to...* 为“把……致力于;把……投入于”,这里根据语境直译为“把……致力于”。*what* 引导的是名词性从句,主语是 *winners, they* 也是代指 *winners*,所以 *what they imagine they should be* 直接译成“成功者想象自己应该成为何种人”。*what* 根据语境灵活处理。*as such* 翻译为“因此”,*manipulate* 为“操纵,操控”。
2. 第二句为翻译难点。难点句式 *there is a difference between A and B*, A 与 B 之间存在着不同,整个句式形成对仗,在翻译时要注意汉语译文的对仗,比如 *being loving* 译成“爱”或者“去爱”,*acting loving* 译成“装爱”。
3. 第四句为翻译难点。难点句式 *nor* 放句首,引导否定句型,表示前面句子的否定情况,同样也适用于后面的句子。比如——*She doesn't like acting.*——她不喜欢表演。——*Nor do I.*——我也不喜欢。因此,*nor do they play the blaming game*,译成“他们也不会怨天尤人”。

高频词汇

concept *n.* 概念aware *adj.* 意识到的;知道的blame *v.* 指责responsibility *n.* 责任感

Section B

72. We believe that we are all brought up to see the world in one way. But at a certain point, we need to expand our horizons. Learning English will help you understand the world through a different language. Understanding the world through a different language will also help you view the world from a different perspective. In other words, learning English helps to open your mind.

句式分析

1. 第一句中的“以一种方式”为固定搭配,所以翻译成 *in one way*,“从小”此处译为“*be brought up*”被养大,也可直译为 *since we are young*,但语言水平稍次。
2. 第二句中的“拓宽眼界”为固定搭配,所以翻译成 *broaden/expand one's horizons/views*。
3. 第四句的难点在确定英文句子的主谓宾上。“通过”表示方法或途径,所以“通过不同的语言”处理成句子的状语,“了解世界”处理成句子的主语,“帮助”为谓语,“从不同的角度”表示方法或途径,也处理成状语。所以就变成:了解世界(主语)帮助(谓语)你(间接宾语)通过不同的语言(状语1)看待世界(直接宾语)从不同的角度(状语2)。“从不同的角度”为固定搭配,所以翻译成 *from a different perspective* 或者 *from different perspectives*。
4. 第五句的“换句话说”为固定搭配,所以翻译成 *in other words* 或者 *to put it another way*。

73. 48 mph.

解析 问题问的是汽车在高速公路上行驶的前半段平均速度为 40 mph,后半段平均速度为 60 mph。整个行程的平均速度是多少?假设全程为 120 英里,前半程(60 英里/小时)需要 $60 \div 40 = 1.5$ 小时;后半程(60 英里/小时)需要 $60 \div 60 = 1$ 小时。所以全程 120 英里需要 $1.5 + 1 = 2.5$ 小时,平均速度为 $120 \div 2.5 = 48$ mph。

74. summit conference.

解析 问题问的是下面字母的排列暗示了什么短语?按照字母从 C-O-N-F-E-R-E-N-C-E,可得单词 conference,又因为字母的排列形状是山峰状(金字塔状),结合单词的文化寓意(顶峰),所以答案是 summit conference。

75. 10. 45. 13.

解析 问题问的是这些数字手表上的时间有着逻辑上的联系。第四个手表应该显示什么时间?小时数是从 4-6-8,依次递加 2;分钟数从 30-35-40,依次递加 5,秒数是从 52-59-06 依次递加 7,所以答案是 10. 45. 13。

76. C.

解析 问题问的是最后一个火柴手应该是哪个。根据前三幅图得知,主要是“小人”的脸部从第 3 幅图开始,每次递加 1 笔,所以选 C。

77. E.

解析 问题问的是哪个图标可以替代问号。由前 3 列得知,X 与 Y 组合得到 Z; 1 和 2 组合得到 3,且重合的部分消失,按照这个规律,可以得出问号处的图标,所以选择 E。

The island is beautiful. Don't be dismayed when you get off the plane and find you in
a large, rather ugly city with little sense of the old way of life you have read ^. Just a
short car ride way is the island you have been promised with its small villages and slow
pace of life. And there is really something for everyone. For those that like sunbathing, it
has some of the most beautiful beaches in the world. If you like walking, the paths take
you across some breathtaking scenery. Few other places can match the stunning landscape
of this island. For water sports enthusiasts, there are many unusual activities such as
diving of pearls or turtle spotting, along with a few of the more common sports such as
waterskiing or windsurfing. If history is your thing, don't worry. There's plenty of history
round every corner. Ruin from the ancient civilisations that lived here over 3,000 years
ago are everywhere, and although a lot of people come here just to see the palace, or you
can find some lesser remains scattering around the surrounding hills.

Visit it any time of the year but you will not be disappointed. Not many places in the
world can offer so many. No holiday will ever match this one—this island has got it all!

87. much
78. 解析 此句的意思是“当你下飞机,发现自己处于一个巨大且丑陋的城市,几乎感受不到你之前通过阅读了解的古老生活方式,不要沮丧”,find oneself in + 地点或场景,意为“发现自己身处……”,所以 find 后面需要加反身代词,改成 yourself。
79. 解析 此句的意思是“当你下飞机,发现自己处于一个巨大且丑陋的城市,几乎感受不到你之前通过阅读了解的古老生活方式,不要沮丧”,read 表示“阅读”,而 read about 表示“通过阅读得知”,本句中 read 的宾语是 the old way of life,需要的意思是“通过阅读得知”,所以在 read 后加 about。
80. 解析 此句的意思是“只需一小段车程就能到达小岛,岛上有承诺给你的小村庄和安静的生活”,整个句子为倒装句,you have been promised 的真正宾语是 the island,a (n) + ride away 表示“有开车那么远的距离”,所以 way 改成 away。
81. 解析 此句的意思是“这些小路能带你穿行过那些美妙的景色”,across 表示从表面穿过,through 本意为“从内部穿过”,这里表示抽象概念,表示“历经,经历”。语境为“带你体验美妙的景色”,所以 across 改成 through。
82. 解析 dive of 为“……的潜水”;dive for 为“为……而潜水”。此句的意思是“为获取珍珠而潜水”,表达的是目的,所以将 of 改为 for。
83. 解析 本句的意思是“3,000 多年前的古代文明留下的遗迹遍布各处”,Ruin 是句子的主语,是名词,表示“遗迹,残骸”,谓语是 are,所以主语用复数。所以将 Ruin 改成 Ruins。
84. 解析 本句的意思是“尽管许多人到这里只为了欣赏宫殿,(但是)你会发现更少的遗迹散落在周边的山丘上”。本句中出现了两个连词 although(尽管)和 or(否则),根据语法知识,两个句子的连接不需要用两个连词,需要删掉一个连词,再结合句意,因此删掉 or。
85. 解析 本句的意思是“你会发现一些更少的遗迹仍然散落在周围的山丘上”,remain 是半系动词,表示“保持”,相当于 stay,后面接形容词,表示一种状态。scattering 是 scatter 的动词,本身也可以作形容词,但是表达一种正在进行的状态,此处表达的是一种已经发生过的场景。所以将 scattering 改成 scattered。
86. 解析 本句的意思是“一年之中的任意时节去参观这个地方,你都不会失望的”。本句的逻辑为递进关系,不需要转折,and 表示并列或者递进,所以将 but 改成 and。
87. 解析 本句的意思是“世界上其他地方很难带给你如此多的(乐趣/美景)”。so many 后面省略了名词,按照句意补全,应该是“这个地方能提供的美景/乐趣”,美景/乐趣是不可数的,所以将 many 改成 much。

Dear Nadia,

We do feel sorry for what you are undergoing. Now, as a member of Student Advice Service, I'm writing to offer my suggestions on relieving you from the entire burden, which I believe can work most to solve your problems.

Above all, it is a great idea for you to apply for the student subsidies that our university establishes to aid those who have trouble in affording school fees and living expenses. In case you don't know how to apply for them, I'll enclose the policy documents as attachments in this email. What's more, if I were you, I would quit the job in the restaurant and apply for a part-time job in our university library which has a higher salary and allows you more time to study. Also, it would benefit you a lot if you could spend more time on study and try to get scholarship.

I do hope that you will find these tips useful. If you have any questions later on, please do not hesitate to contact me. Wish you all the best!

Yours,
Li Hua

My Views on Whether Government Should Invest More on Scientific Research

Globally, scientific research contributes a lot to national and social development. Some people believe that our government should spend more money on scientific research and less on other things. I hold it that our government should keep a balance between expenses on scientific projects and other things.

Scientific research does bring about lots of societal benefits and thus should be a high priority. For example, advances in medical technology have helped substantially cure and prevent diseases while advances in educational research have helped upgrade teaching facilities and improve teaching efficiency. All these facilitate people's living standards and life quality, so our government should continue to invest a lot to accelerate scientific research. However, this is not to say that other projects should be given lower priority. Besides scientific research, our government should also take account of other important issues, such as investment in public infrastructure, education, old-age care and the like. These areas are also indispensable for a harmonious and balanced society. They may not immediately address society's pressing social problems, but in the longer term, it might be necessary to keep balanced expenses on scientific research and other things. Only by combining scientific research and other projects can we reap a balanced and harmonious society.

To conclude, I would argue that our government should primarily monitor and control scientific research while never ignoring the development of other projects. In particular, more expenses should be spent in terms of scientific development in fields such as the military, medicine, aviation, and education.
