Section B

Conversation One

【答案与解析】

6.F 对话一开始女士就提到 "What did you do during this year?", 此处 "this year" 即指 Robert 休息的一年。由此可知女士是好奇 Robert 在这一年做了些什么, 而不是他为什么选择休息一年。故答案为 F。

7.T 男士在回答女士问题时提到 "I'd say I got plenty of work experience, but what I did was mostly travel", 同时根据后文 "I went over to Australia..." 以及 "At the end I went to New Zealand..." 可知, Robert 在这一年中工作的同时还去澳大利亚、新西兰旅行。故答案为 T。

8.T 当女士询问 Robert 在大楼的工作经历时, 他回答 "I mean it was interesting...and a good engineer has to get his hands dirty...", 即他认为这段工作非常有趣, 并且对他日后成为工程师也有帮助。故答案为 T。

9.T 当女士询问 Robert 为何选择这个学校时, 他回答 "...the department has a very good reputation in this field...saw that the percentage of graduates going straight into industry was very good.", 由此可见他选择学校的理由是专业排名高以及毕业生未来就业率高。故答案为 T。

10.F 当提到自己其他的兴趣爱好时, Robert 表示 "I'm also very interested in mountaineering...", 即他对登山感兴趣, 但他并没有提到自己想要系统地对登山进行学习。故答案为 F。

【录音原文】

W: Robert. I notice from your application form that you took a year off between high school and university. (6) What did you do during this year?

M: Well, I'd say I got plenty of work experience, but what I did was mostly travel. (7) I went over to Australia for the year and spent the time travelling and working all around the country. At the end I went to New Zealand and travelled around there for a couple of months.

W: What kind of work did you do out there?

M: It was fairly menial stuff. I delivered furniture, helped in a pub, served in a hotel and worked on a building site, and things like that.

W: Working on a building site must be some good experience for engineering?

M: I suppose so. (8) I mean it was interesting to see the brass tacks side of things, and a good engineer has to get his hands dirty, my father says.

W: He's absolutely right. Now, why did you choose Westley University to study Civil Engineering?

M: Well, (9) first of all I know the department has a very good reputation in this field and, before applying, I checked out the statistics and saw that the percentage of graduates going straight into industry was very good.

W: Yes, we're very proud of that.

M: (10) I'm also very interested in mountaineering and your campus here in the Midlands is within reasonable distance of Snowdonia, so I'll be able to go hiking at weekends when work allows it.

W: That's good. It's very important for students to have interests outside of their studies. It helps deal with the stress.

M: I also play football a lot, and the University runs quite a few teams in the local leagues, so I'd like to get.

W: Is there anything you'd like to ask me about the course, Robert?

Conversation Two

【答案与解析】

11.A 当女士对男士提出 "Can you tell us about what happens when geniuses relax?" 这一问题时, 男士为了佐证他的观点, 共引用了三个名人, 即 Archimedes, Richard Feynman, Alexander Fleming, 以及他们的故事来举例。故选 A。

12.C 对话中男士提到 "Archimedes's famous 'Eureka' moment came while he was having a bath.", 即阿基米德的灵感来源于他在浴缸中进行沐浴时。故选 C。

13.C 男士第二次回答女士问题时, 提到 "...Robert Root-Bernstein compared the hobbies of 134 Nobel Prize winning chemists with those of other scientists." 即 Robert Root-Bernstein 将 134 名诺贝尔奖得主与普通科学家进行对比。故选 C。

14.B 当男士介绍研究发现时, 第二点提到 "Over half were artistic and almost all had a long-lasting hobby..." 即他们中超过半数的人都拥有一项长久的爱好, 例如象棋或者昆虫标本收集等。故选 B。

15.D 当男士介绍最后结论时提到 "And people who're good at making these connections, people who pursue creative hobbies and interests, often excel in their particular fields." 即这些优秀的人的共同点是在他们的特定领域出类拔萃。整句话重点在句末。故选 D。

【录音原文】

W: Can you tell us about what happens when geniuses relax?

M: Without doubt, great scientists don't always make their discoveries in the lab. (12) Archimedes' famous 'Eureka' moment came while he was having a bath. Physicist Richard Feynman saw a plate flying through the air in a college cafeteria, and was inspired to calculate electron orbits. He later won the Nobel Prize. And Alexander Fleming was making mould for his hobby, microbe painting, when he accidentally developed penicillin.

W: So what does this tell us?

M: Well, we've looking into the psychology of high achievers. (13) A recent study by Robert Root-Bernstein compared the hobbies of 134 Nobel Prize winning chemists with those of other scientists. He found that most Nobel Prize winners acquired their accomplishments outside the lab. (14) Over half were artistic and almost all had a long-lasting hobby: chess or insect collecting. Twenty-five percent of the Nobel Prize winners played a musical instrument and 18 percent drew or painted regularly. Of the common scientists, under one percent had a hobby.

W: Fascinating. So should we conclude then, that only a creative person can be a genius?

M: Well, I think that's debatable. Perhaps it's true up to a point, but I don't think it's as clear-cut as that. What we do know is that to a certain extent, creative thinking can help people to solve problems, even scientific ones. If you're thinking about a problem all the time, often the answer eludes you. But it may come in an inspiration when you're least expecting it—perhaps when you're asleep, or thinking about other things, doing a hobby, for example. It's not 100 percent certain, but it seems that the mind has the ability to make connections from one part of your life to another, so that actually stepping back from a problem can often provide the answer. (15) And people who're good at making these connections, people who pursue creative hobbies and interests, often excel in their particular fields.

The Rhodium Group studies U.S. emissions of carbon dioxide, a gas linked to rising temperatures in Earth's atmosphere. 22. controversy and worry

23. apples of gold

24. change into

25. making a living

【录音原文】

Tomatoes originally come from South America and have been eaten by people there for thousands of years. Today, tomatoes are popular (21) the world over. However when they were first introduced, there was quite a bit of (22) controversy and worry surrounding them.

Ancient Aztec writings mention recipes for dishes of tomatoes, peppers, and salt—probably the first salsa recipe! Spanish soldiers conquered the Aztecs and brought tomato seeds back with them to Europe. In Europe, these yellowish tomatoes were first called (23) apples of gold. "People were afraid to eat tomatoes because the plant looked similar to the nightshade plant, a deadly poison. German people even thought that if someone ate tomatoes, they would (24) change into a werewolf. However, by the mid-1800s, people all over the world had accepted the tomato as a good food to eat. Nevertheless, tomatoes were due for more problems. Do you think tomatoes are a fruit or vegetable? Actually they are a fruit. However, in America, they are a vegetable by law. Why are tomatoes legally a vegetable in America? In the 1800s, there was no import tax on fruit from other countries, but there was an import tax on vegetables. At that time, many tomatoes were coming from other countries into America, and American tomato farmers became worried about (25) making a living. The government made tomatoes a vegetable by law so that non-American tomatoes would be taxed.

【录音原文】

Many businesses and governments try to plan for the future. But to make a good plan, these people must take into account how the world will change in the future. (26) The best predictions about the future come from experts in the fields related to where the changes might occur. Therefore, (27) eighteen large organizations in Europe and the United States worked together to make some realistic predictions about how our world will be different in the year 2025. Some of the predictions this group made are described as the following.

First, the study of genetics will make it possible for doctors to make people smarter and stronger. (28) Genetics will be used for more than just keeping people healthy.

Second, countries with advanced technology will only use 66% of the energy they used in 2010. This energy includes energy used for production and energy used for services in the country. However, (29) each person in countries that do not have advanced technology will use 160% of the energy they used in 2010.

Third, one kind of currency will be used for international business. (30) This worldwide currency will be used mostly by business people and travelers.

Special identification cards will be used worldwide to show a person's home country, medical history, education and work history, religion, and bank accounts.

This is only part of the list of predictions that the group made. It can be seen from this list that even though some things in the future will be very different and people in advanced countries may be better off generally, some problems in the world today will still occur even in the year 2025.

（“有志为顶级球队效力”可以灵活转化为 have the ambition to play for the best teams。“由……组成”需用 make up 的被动形式 be made up of。）

78.So, how do players from outside Europe adapt to being in a new environment with so many new faces?

（adapt to 后加动词 ing 分词形式，表示适应。“聚集众多新面孔的新环境”可以灵活转化为 a new environment with so many new faces，没有必要加动词。）

79.Therefore it is crucial that the clubs help these players to feel at home and enjoy their new lives.

（it is crucial 作形式主语放句首，后面跟两个并列成分。）

80.When these players arrive in Europe, they have to learn a new language and get used to very different food.

（When 放句首引导时间状语从句。have to 必须，不得不。）

81.In Asia, for example, players will neither complain if their teammates play badly, nor tell their coach if they don't like the tactics used.

（neither...nor...句首，后面的句子需要进行部分倒装。tactics 策略；战术。）

Part VI Error Correction (10 marks)

【答案与解析】

82.film→films

（film 为可数名词单数形式不能单独出现。并且该公司发行了许多部影片，故使用 film 的复数形式 films。）

83.show ∧ world's→the

（first 为序数词，使用时前面需加 the，故在 world's 前加定冠词 the。）

84.of→about

（of 表示从属关系，而 about 意为“关于，对于”。题干中想要表示 *The New World* 《美丽新世界》是一部有关美国十七世纪的戏剧，故将 of 改成 about。）

85.nowhere→everywhere

（根据上下文，文章想要表达的并非否定之意，而是渐进之意。故将 nowhere 改为 everywhere，表示如果人们喜欢有气味的电影，那么所有电影院都将予以推行。）

86.√

87.while→when

（在表示“当……时”时，when 后可以跟延续性动词与非延续性动词，而 while 后只能跟延续性动词。且 when 可以表示时间点，而 while 只能表示时间段。题干中 while 后的 go to see a film 为短暂性动词，故将 while 改成 when。）

88.produce→produced

（气味 smell 与谓语动词 produce 为被动关系，即香味被人制作出来。故需要用 produce 的过去分词形式 produced。）

89.sadly→sad

（修饰后面的名词 scene，需要用形容词而非副词。故将 sadly 改成其形容词形式 sad。）

90.is ∧ completely→not

（根据最后一段可知，将气味放进电影的想法并非第一次出现。故在 completely 前加上否定词 not。）

91.删除 other

（each of 每一个。each other 彼此，互相。且 each other 在使用时不与 of 搭配。题干所表达之意为电影院在观众入场时给他们每个人一张卡片。故删除 other。）

96. 【答案】 B

【解析】 题干中正方体的三个图形在正方体展开图上无法平行出现，故 A 错。C、E 的展开图中箭头与空心圆形在折叠起来之后处于对立面，与题干正方体不符，故排除。题干正方体三角形位于顶面，空心圆位于侧面，而将 D 项展开图折叠，三角形将位于侧面与顶面，且顶面三角形方向与题干中不同。故选 B。

The chart gives us an overall picture of China's online travel booking market in the last four years. The first thing we notice is that both the annual growth rates of consumers and transaction value are decreasing. This means that as time goes by, the number of consumers and the number of transaction value grow slower than before. We can also see from the statistics given that the total numbers of consumers and transaction value are increasing year by year, with 2018 the highest of the four years. The figure also tells us that our online travel booking market is still developing prosperously. We can see that we have a bright future for it to grow up.

Judging from these figures, we can draw the conclusion that China's online travel booking market is growing stably. The reason for this, as far as I am concerned, is that individuals are leading a better life nowadays and they tend to enjoy their life more than before.
