Despite modern society's heavy dependence on fossil fuels for energy, most people are aware that the supply of these fuels is finite. As oil, (21) in particular, becomes more costly and difficult to find, researchers are looking at alternative energy sources.

Solar panels catch energy directly from the sun and convert it into electricity. One of the world's largest solar power stations is located near Leipzig, Germany, where more than 33,000 solar panels generate enough energy to power about 1,800 homes. But unlike the burning of fossil fuels, the process used to create all that solar energy produces (22) no emissions.

Today, however, solar provides less than one percent of the world's energy, (23) primarily because the cost of the panels is still very high. And price is only one issue. Clouds and darkness also cause solar panels to produce less energy, which requires one to have additional power sources available.

Some scientists think the solution to this problem can be found in space—which they say is the ideal place to gather energy from the sun. With no clouds and no nighttime, a space-based solar power station could (24) operate constantly. These stations would send the power back to the earth, which could then be turned into electricity for consumption.

Advocates of solar space stations say this technology would require a lot of money initially, but eventually it could provide continuous, clean energy that would be cheaper than other fuels. Also, unlike other energy sources, solar power from space will last as long as the sun shines, and will be able to (25) guarantee everyone on the earth all the energy they need.

Summary

Listening in class is not like listening to a TV program, listening to a friend or even listening to a speaker at a meeting. The difference of course is that what is setting class is vital to your study, knowing how to listen can help you get more out of what you hear, understand better what you have heard and save your time in the process. (26) Here are some strategies that will help you become a more effective listener in class.

1. (27) Be ready for the message. Prepare yourself mentally to listen to here and to receive the message. Listen to the main concepts and central ideas, not just two facts and figures. Although facts are important, they will be easier to remember when you place them in a context of concepts, themes, and ideas.

2. (28) Listen for new ideas. Even if you are an expert on the topic, you can still learn something new. Assuming you have already heard all of this before means that your mind will be closed to any new information. Hear what the speaker wants you to receive, to understand and to learn.

3. Repeat in your mind and think words that you hear can go in one ear and out the other unless you make an effort to retain them. (29) Think about what you hear and make an active effort to retain it by repeating it silently to yourself. Decide whether you think what you have heard is important, reflect on the new information.

4. Sort organize and categorize. (30) When you listen, trying to match what you are hearing with your previous knowledge, take an active role in deciding how you want to recall what you are learning.

解析 题干问下列哪项不是国际标准舞。waltz 指的是“华尔兹”；hornpipe 指的是“号笛舞”；foxtrot 指的是“狐步舞”；polka 指的是“波尔卡舞”；quickstep 指的是“双人快步舞”。其中，号笛舞不属于国际标准舞。答案为 hornpipe。

75. B

解析 题干问把上面的图形折叠成一个立方体对应下列图中哪一个？通过观察，从 A 项所展示的角度看，上一面和右一面固定的情况下，正确的左一面为正中间有黑点且有穿过斜线的一面，所以排除 A 项。从 C 项所展示的角度看，左一面固定下来后，正确的上一面为正中间黑点，但是斜线位置不对，所以排除 C 项。从 D 项所展示的角度看，右一面固定情况下，左一面的黑色三角区应是上下而不是左右，所以排除 D 项。从 E 项所展示的角度看，右一面固定下来后，左一面的斜线位置错误，所以排除 E 项。从 B 项所展示的角度看，三个展示面均正确。因此，答案为 B。

76. 1

解析 题干问问号处的数字是多少。通过观察，中间的三角形的三个顶点上的数字分别是左右两个三角形相对顶点上的数字之和。由此可知，问号处数字等于 7 减去 6 之差，答案为 1。

77. A

解析 题干说城里有几辆自行车被偷了，有三个嫌疑人，陈述分别如下，其中一人的陈述为真，其他二人为假，那么谁有罪？本题可逐个假设。假设 A 说了真话，也就是车是 C 偷的，那么 B 和 C 所说的话一致；假设 B 说了真话，也就是否认 C 是罪犯，那么推出有两名罪犯；假设 C 是罪犯，那么 B 的陈述为真，则与 A 中 C 是罪犯这一表述相矛盾。三种假设中，只有第一个假设成立。因此，答案为 A。

78. **解析** 该句的意思是“西班牙人尤其如此——每天,在光天化日之下”。in broad daylight 为固定搭配,表示“在大白天,在光天化日之下”。因此去掉 the。

79. **解析** 该句的意思是“每天下午一两点到四点半左右,人们停下工作,散步回家,悠闲地吃一顿饭,再小睡一会儿”。or so 为固定用法,表示“大约”。因此需将 and 改为 or。

80. **解析** 该句的意思是“共同市场的技术官僚已经告知西班牙,在统一的欧洲,这不是做事的方式”。句子主语是“共同市场的技术官僚”,宾语是“西班牙”,主谓之间为主动告知的关系,不是被动关系。因此去掉 been。

81. **解析** 该句的意思同上。unified 作 Europe 定语,表示“统一的欧洲”。因此需将动词形式 unify 改为形容词形式 unified。

82. **解析** 该句的意思是“当生产力成为世界上最大的信仰时,午睡的传统仍然存在”。定语从句先行词为 time,表示时间,后面使用 when。因此需将 which 改为 when。

83. **解析** 该句的意思同上。live in 表示“居住在……”,live on 表示“延续,存在”,根据句意,需将 in 改为 on。

84. **解析** 该句的意思是“没有什么任务是如此重要,以至于你不能等上几个小时去做更重要的事情,比如吃饭、放松或补觉”。so...that...表示“如此……以致于……”。需要将 which 改为 that。

85. **解析** 该句的意思是“困惑的外国人很快就知道,他们进入了一个新的昼夜节律秩序”。foreigner 为可数名词,此处使用复数形式。因此需将 foreigner 改为 foreigners。

86. **解析** 该句的意思是“与一般的午餐休息不同,午睡是对所有事情的真正休息,因为除了完全停止之外没有其它选择”。come to 为固定用法,表示“谈论;涉及”,因此需要在 come 后加上 to。

87. **解析** 该句的意思是“虽然气候仍然是一个因素,但今天的午睡生活方式主要是由西班牙生活的社交需求驱动的,西班牙人对办公室之外的生活同样、甚至更重视”。which 引导非限制性定语从句,指代前面整个句子的内容,所以谓语动词用单数形式,因此需将 place 改为 places。

Report on the Popularity of Different Types of Transports

The chart is a result of a survey of the popularity of the various types of transport that people use to commute. 500 people participated in the survey.

According to the chart, the most popular type of transport is by train, followed by bus, which accounts for 52 percent and 28 percent respectively. Fifteen percent of people commute by car because they think it is faster and more convenient. There are 5 percent people cycling because they think they can get exercise on their way of commuting.

It can be seen that the vast majority of people choose public transportation to commute, which can not only reduce pollution, but also show that people are satisfied with public transportation. Nowadays, public transportation has become more convenient, cost-effective and reliable.

Professions Have Their Own Value

Nowadays, many people argue that some certain professions, like sports stars and actors earn too much money. While professions that contribute more to society are paid the most modest wages. I think this is a universal social phenomenon, which can be viewed from the following perspectives.

First, in the big picture, most of us are paid monthly to support ourselves and our families by doing specific jobs, including most sports professionals and actors. The famous and highly paid are, after all, a minority of them. Most of them actually do work as we ordinary people do.

Second, careers in these high-paying industries are short due to the nature of these professions. Sports professionals, for example, train hard every day in order to break the record in professional events and fight for their nations. If they don't succeed in a few years, their career is probably over.

Finally, any kind of hard work is worthy of respect and has its own value. All professions contribute to society in different ways. Besides, every occupation has its particularities. We cannot judge a social phenomenon by its specificities alone.
