- M Does your stress level interfere with your work or home life?
- W Yeah, when I'm under a lot of pressure it's difficult for me to fall asleep, which makes me tired and unproductive at work the next day.

- W I don't know, doctor. I think I really just need to blow off some steam every once in a while. I'm not sure I need all this therapy.
- M In my professional opinion, Helen, you may be very ill. We need to discuss an integrated treatment plan, with therapy sessions and anti-depression medications.

Dictation

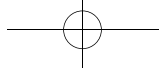

An environmental group says a program to save one of Kenya's most famous animals has returned a group of mountain bongos to the wild. The International Union for Conservation of Nature said disease, (21) illegal hunting and forest loss have left fewer than 100 wild mountain bongos.

But last week, conservationists released five of the large creatures into the 3.1 square kilometer Mawingu Mountain Bongo Sanctuary near Mount Kenya.

“The mountain bongo is one of Kenya's most important iconic animals,” said Najib Balala. He is the country's minister of tourism and wildlife. He spoke after (22) cutting the ribbon at the sanctuary's opening ceremony on Wednesday.

The bongo's release is the high point of a breeding and rewilding program that began in 2004. Rewilding is a term that means planning the introduction of a rare animal back into the wild. The goal is to have 50 to 70 bongos in the sanctuary by 2025, and 750 by 2050, the government says. “This is like the first step in the recovery,” said

Isaac Lekool, head of veterinary services at the Kenya Wildlife Service. Mountain bongos once moved (23) in large numbers. But the few remaining animals live in forested areas around Kenya. Their bodies have thin, white stripes making them easy to recognize. The International Union for Conservation of Nature said local people are hunting the animals with dogs.

Robert Aruho is head of veterinary services at the Mount Kenya Wildlife Conservancy. He said, “This species is (24) being driven to extinction in the wild unless something is done quickly.” Extinction is a term that means the complete disappearance of a species. Aruho added that the Conservancy has set up community conservation, education, and empowerment programs to (25) bring attention to and help reduce the human threats to the animal. It has also involved local communities in planting over 35,000 local tree species around Mount Kenya to help the damaged forest. To help maintain genetic health in the breeding program, approval has been given to import bongos from Europe and America, Aruho said.

Summary

A movie trailer is a shot video advertisement for a film. On today's Education Tips, I will explain how these short videos can improve your English.

Though movie trailers are usually just two to three minutes, they can be extremely effective. (26) In watching them, you can sharpen your listening skills while also learning new words and expressions. There are two kinds of technical elements which are especially helpful: closed captions and changeable playback settings.

(27) With closed captions, you can read the dialogue as you watch and listen. And with playback settings, you can slow down the speech if someone is talking too fast.

Now, let's talk about the steps you can take to get the most out of watching movie trailers: The first step is to find them. If you search on line, several film trailers will appear and you can choose one that looks interesting.

Animated films can be an especially good choice for English practice, whatever your age. Make sure the video you choose offers closed captioning, which you will use later.

Next, watch the video at normal speed without closed captions. Try to understand what the story is about overall.

(28) Then, watch it again to seek more details. With this method, you are testing your English skills. It will give you an idea of whether the dialogue is too fast or difficult for your skill level.

Then it is Step Three. Watch the video again, this time with closed captions. Find the setting at the bottom of the video and activate the captions. This can help you in several ways. (29) You can confirm whether you understood the dialogue in your first viewings, make clearer any dialogue you did not understand, and connect the sound of words with their spellings.

After watching with captions, if the actors are still talking too fast, you can take the next step: slow down the playback speed and watch the video again. Slowing the playback speed not only makes dialogue clearer but also slows how fast the captions appear, making them easier to read. (30) After you have watched the video, you are ready for the final step: Watch the video once more, this time at normal speed without captions. At this point, you will probably notice a huge improvement in your understanding.

73. 酌情而定/见机行事。

解析 题干要求写出划线词组的汉语意思。所给句子意思是“我现在不知道该吃什么。等我们到了美食广场_____。”画线部分 play it by ear 字面意思是“用耳朵玩”，事实上，这一表达的来源同音乐有关，原本指的是那些会弹钢琴或者某种乐器但是却不会看五线谱的人，当他们要弹奏某个曲调，只能凭着感觉弹奏。延伸出的意思是做的某一件事，并不是事先计划好的事，也就是见机行事，随机应变的意思。答案为酌情而定/见机行事。

74. 4 seconds.

解析 题干问如果钟需要2秒钟敲2点，那么需要多久敲3点。根据题目意思，敲2点钟要敲2秒，也就是敲2下之间的间隔是2秒，那么敲3下就有2次间隔，因此中间要停顿4秒钟。答案为4 seconds。

75. footsteps.

解析 题干问什么东西拿的越多，留下的就越多？通过 leave behind 容易想到一个词，footstep，指的是人行走或跑后留下的“足迹”或者“脚印”。因此，答案为 footsteps。

76. D

解析 题干问马与栗子的关系就像猫与什么的关系。英语中，horse chestnut 指的是“马栗，七叶树”，cat mint 指的是“猫薄荷”，两项指的都是植物。A 选项 canary 指“金丝雀”。答案为 D。

77. E

解析 题干要求根据第一组图形的规律来补充第二组图形中的第二个图形。通过观察第一组图形发现，将第一个图形中位于中心位置的正方形拿出，内部充满由外至内第二圈的颜色即可得到第二个图形。同理，第二组图形中，取第一个图形里面最小的三角形，内部充满由外至内第二圈的颜色即可得到第二个图形，也就是选项 E 中呈现的图形。答案为 E。

Many bacteria don't bother us. In fact some, in particular the bacteria that live in our digestive tract, are beneficial. When we take antibiotics to fight bacteria in the body, they kill the target harmful bacteria, but they also kill the beneficial bacteria. This can lead ^{78. targeted} ^{79. to} digestive problems, the best-known example of which is diarrhea. Taking probiotics is said to be a good way to replace these good bacteria.

Some conditions in the human body, such as your temperature, encourage bacteria to reproduce and thus makes you ill. The more powerful varieties spread through your body ^{80. make} very quickly. Certain microbes are too powerful and fast that the body doesn't have time or ^{81. so} the strength to fight them.

Washing your hands regularly in hot water may be ^{82. the} best way to avoid getting ill. We place a lot of faith in vaccines, to the point that we become complacent and don't take ^{83. where} such basic precautions. However, many people think that vaccination programmes have done little to stop the spread of diseases, claiming that other developments, chiefly those which encouraged good hygiene, had already severely reduced the dangers after vaccine ^{84. before} programmes were implemented.

The human species developed an immune system to help us fight off bacteria. These organisms enter into our bodies in a variety of ways: through the food we eat, the water ^{85. into} we drink and the air that we breathe, to name just three. A vaccination works with the body's ^{86. breathe} defences to help protect us against an attack from harmless bacteria. A non-active vaccination ^{87. harmful} can introduce a safe form of a toxin to help the body 'learn' how to fight the live version.

78. **解析** 该句的意思是“当我们服用抗生素来对抗体内的细菌时,它们杀死了目标有害细菌,但也杀死了有益细菌”。target 一词用来限定中心词 bacteria,两者间为被动关系,使用过去分词 targeted 形式。因此将 target 改为 targeted。

79. **解析** 该句的意思是“这会导致消化问题,最为人所知的例子就是腹泻”。lead 为不及物动词,后接宾语时应加 to,表示“导致……”。因此加上 to。

80. **解析** 该句的意思是“人体的某些条件,如体温,会促使细菌繁殖,从而使你生病”。句子中有 and,后面动词形式应该和前面保持一致,使用动词原形。因此把 makes 改成 make。

81. **解析** 该句的意思是“某些微生物是如此的强大和快速,以至于身体没有时间和精力来对抗它们”。句子里的 powerful and fast 是一种原因,that 引导结果,所以用 so...that... 固定结构,表示“如此……以至于……”。因此需将 too 改为 so。
82. **解析** 该句的意思是“经常用热水洗手可能是避免生病的最好方法”。句子有最高级 best 需要在其前面加上 the。因此加上 the。
83. **解析** 该句的意思是“我们非常相信疫苗,以至于我们变得自满,不采取这些基本的预防措施”。point 表示抽象的地点,that 引导的定语从句后句子成分完整,所以引导词应用副词,需将 that 改为 where。
84. **解析** 该句的意思是“然而,许多人认为疫苗接种规划对阻止疾病传播几乎没有什么作用,他们声称,在实施疫苗接种规划之前,其他发展,主要是鼓励良好卫生的发展,已经大大减少了危险”。根据句意可知,既然人们弱化疫苗接种的作用,那么他们的说法是接种疫苗前危险得以减少,而不是之后。需要将 after 改为 before。
85. **解析** 该句的意思是“这些生物体通过各种方式进入我们的身体……”。enter 是及物动词,后面直接接宾语。因此去掉 into。
86. **解析** 该句的意思是“……我们喝的水和呼吸的空气……”。breath 是名词,这里要使用动词,因此将 breath 改为 breathe。
87. **解析** 该句的意思是“疫苗与身体的防御系统一起工作,帮助保护我们免受有害细菌的攻击”。根据意思,疫苗及身体防御系统对抗的是有害细菌的攻击。harmless 意思是“无害的”,意思不对。harmful 指的是“有害的”。因此需将 harmless 改为 harmful。

One Should Get Fined for Using Phones When Crossing the Road

Nowadays, people can't live without mobile phones. Mobile phones have become one of the essential items in people's life and work. Even when crossing the street, people often keep their heads down and focus on their phones. Every year, there are a lot of traffic accidents caused by looking at the screen when crossing the road. In order to reduce this phenomenon, I am in favor of fining people using phones when crossing the road!

Fine is a means and the main purpose is to enhance people's awareness of life safety. Life safety is closely related to everyone, however, many people consciously or unconsciously ignore life safety. Fining can effectively alert people, making them protect themselves when crossing the road. In addition, from the perspective of traffic rules, drivers and pedestrians are equal. There are laws explicitly restricting drivers from using mobile phones while driving. Then why can't pedestrians be restrained by fining if they use mobile phones while crossing the road?

As a matter of fact, some cities have already made such restrictions and implemented the policy. I am looking forward to more applications of this restriction.
