Section A

【原文翻译】

莫扎特效应是指利用音乐来减轻压力或抑郁,鼓励放松,激活身体和提高记忆力。音乐的使用还可以改善听力障碍和其他疾病,如阅读障碍、注意力缺陷障碍和自闭症,甚至有助于身体疾病和受伤。

多年来,许多研究人员一直在研究莫扎特音乐的力量。20 世纪 50 年代,阿尔弗雷德·托玛提斯博士开始了他著名的研究,研究音乐在儿童语言和交流发展中的作用。他的发现使得莫扎特的小提琴协奏曲和交响曲在各地的中心被用来治疗有语言障碍的儿童。近年来,莫扎特的音乐对癫痫的影响一直是英国研究的主题。

莫扎特一生中创作了 600 多首主要作品,选择最合适的音乐作品是很困难的。根据托玛提斯博士的研究,我们知道含有较高频率的音乐会刺激大脑中的听觉系统。对于放松来说,频率较低的慢音乐更有效。通过变换音调和节奏来达到听觉、身体和情绪上的不同反应是成功的关键。

虽然不同类型的音乐对听众有不同的影响,但可以做出一些概括。为了鼓励想象力,建议听一些刺激的音乐,比如民乐和进行曲。其他研究人员认为,听巴赫和科雷利等作曲家的慢巴洛克音乐可以优化学习。

几乎没有确凿的证据表明音乐确实能提高智力。然而,一项流行的研究表明,在参加智力测试之前听莫扎特的学生比没有听的学生得分更高。

41. injuries 【解析】空格处所在句的意思是音乐的使用还可以改善听力障碍和其他疾病,如阅读

障碍、注意力缺陷障碍和自闭症,甚至有助于身体疾病和受伤。and 连接两个相同词性且意思相近的词语, and 前是身体疾病。因此本题应填入 injury 的复数形式 injuries。

42. findings/finding 【解析】空格处所在句的意思是他的发现使得莫扎特的小提琴协奏曲和交响曲在各地的中心被用来治疗有语言障碍的儿童。前文提到托玛提斯博士开始研究音乐对儿童语言和交流的作用,空格后提到莫扎特的音乐被用来治疗有语言障碍的儿童,属于研究结果。空格前是 his,故空格后应填入名词。因此本题应填入 find 的名词形式 findings/finding。

43. effective 【解析】空格处所在句的意思是对于放松来说,频率较低的慢音乐更有效。前文提到较高频率的音乐会刺激大脑的听觉,要保持放松的话,选择频率较低的更有效。空格前是 is more,故空格处应填入形容词。因此本题应填入 effect 的形容词形式 effective。

44. recommended 【解析】空格处所在句的意思是为了鼓励想象力,建议听一些刺激的音乐,比如民乐和进行曲。前文提到,不同类型的音乐对听众有不同的影响,后面紧接举例民乐和进行曲的影响, recommend 和 folk music and marches 之间是动宾关系,故用被动语态。因此本题应填入 recommend 的过去分词形式 recommended。

45. conclusive 【解析】空格处所在句的意思是几乎没有确凿的证据表明音乐确实能提高智力。根据下文的 Nevertheless 可知,前后两句之间是转折关系,即空格所在句表达的是音乐与智力之间没有关系。空格位于名词 evidence 之前,故应填入形容词修饰。因此本题应填入 conclude 的形容词形式 conclusive。

Section B

【原文翻译】

也许很难想象今天的电影院在炎热的天气里会不凉爽,但空调舒适曾经是你票价的一大加分。事实上,1922 年,加利福尼亚洛杉矶的格劳曼大都会剧院首次安装了从天花板进入剧院,从地面而出的循环空调。

威利斯·开利在 1911 年发明了一台机械式空调。20 世纪 30 年代初,随着氟利昂的发展,空调系统开始出现在办公楼、医院、公寓、火车和公共汽车上。氟利昂是一种高效的制冷剂气体,它是含有氟和氯或溴的碳化合物。制冷剂被压缩后变成液体并放出热量。当压力消失时,它就变成了一种吸收热量的气体。

在空气冷却循环中,从房间中抽出的湿热空气被强制通过含有制冷剂的冷却盘管。热空气将热量释放给制冷剂。制冷剂在吸收空气中的热量时蒸发。冷却空气中的水分凝结在盘管上方的翼片上,水顺着翼片流下并排出。冷却后的除湿空气被吹回房间。

与此同时,蒸发的、温度更高的制冷剂进入压缩机。压缩机在压力下将其泵入冷凝器盘管。在这里,冷媒中的热量通过风扇传递到室外。制冷剂作为液体再循环到冷却盘管,继续冷却过程。一个恒温器控制压缩机电机,当室温足够低时关闭它,当温度开始上升时重新启动它。至于去看电影的观众,他们所要做的就是享受电影,因为空调能让他们保持凉爽。

46. installed 【解析】空格处所在句的意思是事实上,1922 年,加利福尼亚洛杉矶的格劳曼大都会剧院首次安装了从天花板进入剧院,从地面而出的循环空调。空格前是 was first,结合句意可以得出该句想要表达的是在 1922 年,空调首次被安装使用,结合给出的四个字母可以推出空格表达的是“安装”之意。该句主语是 circulating conditioned air,与谓语动词是动宾关系。因此本题应填入 installed。

47. off 【解析】空格处所在句的意思是制冷剂被压缩后变成液体并放出热量。根据后文提到当压力消失时,制冷剂就变成了一种吸收热量的气体,也就是说当制冷剂被压缩时会释放热量。give off 意为“散发出(气体、热量或气味)”。因此本题应填入 off。

48. moisture 【解析】空格处所在句的意思是冷却空气中的水分凝结在盘管上方的翼片上,水顺着翼片流下并排出。空格前是 the,故空格处应填入名词。因此本题应填入 moisture。

49. transferred 【解析】空格处所在句的意思是在这里,冷媒中的热量通过风扇传递到室外。空格后是介词短语 by a fan,且该句主语是 the heat,与 transfer 之间是动宾关系,故应用被动语态。因此

本题应填入 transferred。

50. restarting 【解析】空格处所在句的意思是一个恒温器控制压缩机电机,当室温足够低时关闭它,当温度开始上升时重新启动它。该句开头提到恒温器的控制压缩机电机,后面用非谓语动词详细介绍了工作原理,即室温低关闭机电机,室温升高重新打开机电机。结合 and 可知空格处应与 turning 语法形式上相同。因此本题应填入 restarting。

Part IV Reading Comprehension

【原文翻译】

女人真的看不懂地图吗?为什么女人可以聊上几个小时,而男人却从不听她们说一个字?当谈到男女之间的差异时,我们不可能分辨出真理的终结和刻板印象的开始。然而,有一点是肯定的。在世界各地,在所有社会 and 所有收入水平上,妇女都比男子长寿,为什么?作为一个男人真的不好吗?

男性和女性的一大区别在于睾丸激素和雌激素。男性拥有更多的前者,而女性拥有更多的后者。睾丸激素是一种让男人看起来像他们自己的激素。它产生体毛和肌肉。它也会导致秃顶,但一点点脱发意味着对一个更强壮、更快的身体的小惩罚。除了一件事。睾丸激素会对男人的思想产生奇怪的影响。

现在人们认为睾丸激素使男人冒险。男人喜欢体力和极限运动并不是偶然的。男性也更有可能会参与暴力行为。他们寻求冲突,而女人试图创造和谐。所有这些都意味着,男性比女性更容易陷入危险的境地,例如,他们比女性更容易死于事故。另一方面,拥有较高的雌激素水平对女性来说绝对是一个优势。雌激素有很多积极作用,但其中一个特别的是它能保护心脏。因此,女性患心脏病的可能性要小得多。

但我们真的能把一切都归咎于自然吗?当然,我们不只是生物学的受害者,被迫上演已经写好的剧本吗?毕竟,有许多男性确实活到耄耋之年,并健康独立地生活到九十多岁。他们是怎么活得这么好的?这里还发生了其他事情。如果男性的寿命确实比女性短,那么生活方式可能是一个因素。男性更有可能生活得不健康:饮酒和吸烟是男性的两种习惯,会缩短预期寿命。男性对红肉和油炸食品的热情对这种情况没有帮助。

相比之下,女性往往会更好地照顾自己。他们对健康和疾病的意识更强,并且习惯于定期去看医生。相比之下,男性往往直到最后一刻才寻求专业医疗建议,这是不建议的。

所有这些证据都表明,认为女性是弱者的传统观念已经过时了。做男人要危险得多。所以,当你的父亲、兄弟或儿子患了一场严重的男性流感时,记得给他所有他需要的照顾。有时候,做一个男人很难!

51. D 【解析】D 项意思是在世界各地,在所有社会 and 所有收入水平上,妇女都比男子长寿,为什么?空格所在段落主要讲述了男女之间的差异。因此空格处的内容也应体现男女差异。因此选 D。

52. B 【解析】B 项意思是现在人们认为睾丸激素使男人冒险。空格处所在段落上一段最后一句提到睾丸激素会对男人的思想产生奇怪的影响,紧接着下文就举例说明了男性受激素的影响更容易参加暴力行为。因此空格处应承上启下。因此选 B。

53. G 【解析】G 项意思是如果男性的寿命确实比女性短,那么生活方式可能是一个因素。空格处所在段落主要讲述了男性也可以活的很长,但是会受其他因素的影响,空格后提到影响男性寿命的因素。因此空格处的内容也应该关于男性寿命。因此选 G。

54. E 【解析】E 项意思是相比之下,女性往往会更好地照顾自己。空格处所在段落上一段最后提到,男性由于不健康的生活方式寿命变短。而空格后提到他们更关注健康和疾病,可知 they 这里指的与男性相对的女性。因此空格处应填入女性的生活方式。因此选 E。

55. A 【解析】A 项意思是所有这些证据都表明,认为女性是弱者的传统观念已经过时了。空格处所在段落主要讲述了男性在一些方面也是需要帮助的,空格后提到做男人要危险得多,当他们患

了一场严重的流感时,记得给他所有他需要的照顾。即男性强壮不需要照顾,女性虚弱需要照顾这种观念是过时的。因此选 A。

2007 年,杰里米·玛丽开始着手实现他的梦想——环游世界,他选择的交通方式是“最具有社交性的”,也就是说,搭便车。他的准备工作包括制定路线和建立自己的网站。他轻装旅行,但他带了一个背包,里面装着旅行必备的东西。

在送他离开之前,朋友们警告他说,搭便车环游世界是很困难的,甚至是不可能的。如果他听从了他们的建议,他就永远不会离开自己的祖国——法国。

对大多数人来说,搭便车意味着站在路边,伸出大拇指。但这并不总是管用,杰里米很快就意识到了这一点。在一些国家,人们认为这是粗鲁的行为。在其他地方,如果不堵车,搭便车的人要等几个小时。因此,杰里米经常去加油站寻找搭便车的机会,或者在司机减速或在交通灯或十字路口停车时试图引起他们的注意。

最难搭便车的国家是意大利,他经常需要等待数小时,而美国许多州实际上是禁止搭便车的。杰里米说,最容易搭到便车的地方是苏丹和叙利亚。一般来说,他在非洲旅行时不会有太大的麻烦。如果一个国家比较贫穷,人们似乎更愿意搭载陌生人。此外,如果当地没有太多游客,像杰里米这样的外国人会让当地人感到好奇。大多数时候,只要他站在正确的地方,前 10 辆经过的车辆中至少会有一辆停下来。

对杰里米来说,搭便车是一种帮助他更好地了解世界的交通方式。他说:“如果你和一个人待在一个小地方,这会鼓励你和他们交谈,从中你也能学到东西。”如果你搭便车,你可以遇到各种各样的人,他们可能是富人、穷人或失业者。每个人都对自己的国家有自己的看法,他们很乐意与好奇的旅行者分享这些看法。

在一些几乎没有私家车的国家,杰里米乘坐过卡车,在少有的国产车辆上,在拖拉机,甚至还骑过毛驴。他经常遇到其他正在探索同一国家的外国人。在意大利,一位澳大利亚人从漫长的大雨中救了他,让他坐着他的露营车环游了好几天!

只要有路,通常就会有车辆。但如果没有路,他必须穿越湖泊、海洋或大海,会发生什么呢?最困难的搭便车是需要乘船的。有时他需要花数周时间才能搭上船。除非船长同意,否则他无法搭上船。

在乘坐过 1000 多辆交通工具后,杰里米仍在路上,仍然对每一次搭便车感到兴奋。每次司机停车邀请他上车时,都是一段新冒险的开始。

56. He travelled light with the essential things in a backpack.

【解析】题目问杰里米在他搭便车环游世界的旅程中带了什么物品。根据文章第一段最后一句“He travels light, but he carries a backpack which contains the essential things for his journey”可知,他轻装旅行,但他带了一个背包,里面装着旅行必备的东西。

57. He looks for lifts/He asks people to give him lifts.

【解析】题目问杰里米通常是怎么搭便车的。根据文章第三段最后一句“*So Jeremy often goes to petrol stations to look for lifts, or tries to catch a driver's attention as he slows down or stops at traffic lights or crossroads*”可知,杰里米经常去加油站寻找搭便车的机会,或者在司机减速或在交通灯或十字路口停车时试图引起他们的注意。

58. Africa.

【解析】题目问据杰里米说,哪个地方对搭便车的人最友好。根据文章第四段第二、三句“*The easiest places to get a lift, Jeremy says, were the Sudan and Syria. Generally he had little trouble in Africa*”可知,杰里米说,最容易搭到便车的地方是苏丹和叙利亚。一般来说,他在非洲旅行时不会有太大的麻烦。

59. It is a means of transport which helps him to understand the world a little better.

【解析】题目问对杰里米来说,搭便车有什么意义。根据文章第五段第一句“For Jeremy hitchhiking is a means of transport which helps him to understand the world a little better”可知,对杰里米来说,搭便车是一种帮助他更好地了解世界的交通方式。

60. When he had the captain's permission/When the captain agreed.

【解析】题目问的是杰里米在什么情况下能搭上船。根据文章倒数第二段最后一句“He couldn't get a lift unless the captain agreed”可知,除非船长同意,否则他无法搭上船。

第一个动物园据说是在公元前 3500 年左右的埃及。早期的动物收藏陈列通常属于王室。直到 20 世纪末,动物园的主要目的是娱乐。它们的存在是为了让人们有机会看到在野外看不到的动物。1959 年,著名的野生动物专家杰拉尔德·杜雷尔开设了第一家将动物保护放在首位的动物园。

如今,动物园的目标是:保护、教育、娱乐,按此顺序排列。现代动物园努力在为动物提供安全舒适的栖息地和为游客提供在自然环境中观看动物的机会之间取得平衡。动物园现在分享它们的知识,互相支持。世界动物园和水族馆协会致力于教育人们了解动物福利和保护的知识。它还帮助协调繁殖计划。

从 20 世纪 90 年代开始,动物园开始将它们的主要职责定义为拯救最濒危的物种。每个动物园都专注于一小部分物种。动物园通过繁殖计划拯救了西伯利亚虎和猩猩等物种。例如,2005 年俄罗斯远东地区的西伯利亚虎数量在 331 到 393 只之间。到 2015 年,这一数字已上升至 562 只。这些老虎在美国动物园及水族馆协会的物种生存计划的帮助下得以繁殖。通常,目的是将濒危物种重新引入其自然栖息地。在印度尼西亚,婆罗洲猩猩救援中心教猩猩如何在野外生活。当这些动物准备好后,就会被带到受保护的森林中,在那里自然生活。

既然我们对动物有了更深入地了解,那么动物园试图尽可能准确地重建动物的自然栖息地。例如,北极熊生活在一片白色的开阔地带。动物园试图为动物提供“丰富”,以改善它们的健康。这包括攀爬架、喂食谜题、不寻常的物体和不同类型的食物。它允许动物以正常的方式来行动,比如抓挠、攀爬、挖掘和解决问题。另一种丰富动物生活的方式是将不同种类的动物混合在一起,这些动物在野外自然会混居。英国科尔切斯特动物园有一个名为“野生王国”的围场,多种动物生活在一起。他们发现这些动物的行为因此发生了积极的变化。

不同的技术被用来帮助为动物创造自然环境。例如,美国印第安纳波利斯动物园有一个名为 Hutan Trail 的“功能森林”,是一系列距地面 20 米高的塔楼和缆绳组成。这使得红毛猩猩可以在 200 英尺左右荡秋千,就像它们在家乡印度尼西亚的森林里荡秋千一样。

同样,技术也被用来让公众更深入地了解动物。许多动物园在一些围场内安装了网络摄像头,这样游客就可以在参观动物园的间隙与他们最喜欢的动物保持联系。

在过去几十年里,动物园已经取得了长足的进步。它们现在在保护动物和使人们更加意识到动物的重要性方面发挥着重要作用。动物园使人们意识到动物不应该被过度捕猎,它们在地球生态系统中扮演着重要的角色,并且有助于维持自然界的平衡。

61. entertainment 【解析】根据空格定位至文章第一段第三句“Until the late twentieth century, the main purpose of zoos was for entertainment”,直到 20 世纪末,动物园的主要目的是娱乐。因此本空填 entertainment。

63. natural habitats 【解析】根据空格定位至文章第三段倒数第三句“Often the aim is to reintroduce endangered species into their natural habitats”,通常,目的是将濒危物种重新引入其自然栖息地。因

65. balance of nature 【解析】根据空格定位至文章最后一段最后一句“Zoos have made people aware that animals should not be over-hunted and that they play an important role in the ecology of the planet and in helping to maintain the balance of nature”,动物园使人们意识到动物不应该被过度捕猎,它们在地球生态系统中扮演着重要的角色,并且有助于维持自然界的平衡。因此本空填 balance of nature。

67. “Consuming more rationally” implies possessing green values and making eco-friendly choices. Such choices might encompass: conserving energy at home, traveling in the most environmentally friendly manner, commuting smartly, reducing meat intake, supporting local products and services, purchasing eco-friendly materials, and learning to reuse items. However, consuming more rationally also entails ensuring that a commodity is worth purchasing, even if it is labeled as eco-friendly. Once we have established our eco- and ethical values and have learned how to make eco-friendly choices, the subsequent step is “consuming more rationally”.

【解析】在第二句中,这句话谓语使用 might encompass,后面的内容通过语序调整成动词-ing 形式进行翻译,保持结构上的平衡。“通勤”翻译成 commuting。在最后一句中,首先确定主句为“下一步就是‘更理性地消费’”。“一旦”翻译成连词 once,引导条件状语从句,“树立”和“掌握”作为从句的并列谓语,分别翻译成 establish 和 learn。

71. Everything is divisible by four but £ 2. 10 is not, so it cannot be the correct total. 【解析】题目问我买了 4 支铅笔,每支 2 便士,5 支钢笔,每支 8 便士,还有 8 个记事本和 16 张邮票。虽然我不记得最后两件东西的价格,但我对一张 2. 10 英镑的账单很是质疑。为什么会这样。(答案可以用中文写)铅笔和钢笔一共是 48 便士($4 \times 2 + 5 \times 8$),8 个记事本和 16 张邮票的价格未知,但这些数据都是 4 的倍数(48、8 和 16),因此可推算总账单也是 4 的倍数,而 2. 10 英镑的账单并不是 4 的倍数。因此,可以自信质疑 2. 10 英镑的账单。

72. E 【解析】题目问哪一个代码与行尾给出的形状或图案相匹配。根据已有的五个图案和代码可知,每个图案的代码都含有两个不同大写字母,比较第二和第三个图案,代表大写字母 D,代表大写字母 C,代表大写字母 W,而最后一个图案有,所以匹配的代码一定含有大写字母 W。因此,答案为 E。

When used correctly, ChatGPT can be helpful

The chatbot ChatGPT, developed by artificial intelligence research lab OpenAI, has attracted a lot of attention both inside and outside the tech industry. If used properly, it can be very beneficial to my life.

First of all, ChatGPT helps me in my writing efforts. As a college student, I often find myself tasked with writing essays and academic papers. ChatGPT provides a frame of reference, main ideas, and data sources, which allows me to allocate more time to focus on other innovative aspects of writing.

Secondly, ChatGPT has improved my language learning. It is known for its skilled language understanding and generative ability to produce accurate and fluid responses. I plan to make full use of this advantage to improve my language listening and speaking ability. In this interaction, ChatGPT acts as a learning companion to some extent. In addition, its constructive and personalized feedback helped build my confidence in self-expression.

All in all, ChatGPT is a versatile tool that can be used in many areas to improve work or study efficiency. However, this is a double-edged sword; We must learn to use it wisely in order to reap its benefits.

Part I Listening Comprehension

Section A

*In this section, you will hear **five** short conversations. Each conversation will be read only **once**. At the end of each conversation, one question will be asked, and you have **fifteen seconds** to read the **four** choices marked **A, B, C** and **D**, and decide which is the best answer. Then mark the corresponding letter on the **answer sheet** with a single line through the centre.*

1. M: You said you plan to attend a conference. May I see your official invitation letter?

W: Of course... I've also attached two reference letters from my senior management who can confirm my itinerary.

M: I see. Your passport has quite a few international stamps in it. You do a lot of business travelling?

W: I'm out of the country almost half a year. I'm a Chinese antiquities consultant and advisor. Our company has an office in Zurich.

Question: Where does the conversation probably take place?

2. W: For starters, let's talk about the news organization that's going to be interviewing you. Business Watch International or BWI is a hard-hitting business news channel. They won't make it too easy for you.

M: So no softball questions, huh?

W: Actually, the interviewer will probably start off with a couple of really easy and simple questions.

Question: What's the woman in this conversation?

3. W: Sorry, what's comp time?

M: The “comp” is short for compensation. Basically it means overtime pay.

W: Yeah, but some companies like ours don’t really pay overtime... they give you extra vacation hours instead. If you add up all the vacation time and comp hours I have, I have a lot of time.

Question: What will employees get for their overtime work in the woman’s company?

4. M: Hey, Nancy, you’ve been really quiet these last few days. Is something wrong?

W: I’ve been really really stressed. It’s the end of the year and I’ve got so much stuff to do! I feel I just can’t bear it any more.

M: Well, stress is a real thing. It’s not an imaginary condition.

W: It’s seriously affecting my life! I can’t sleep. I don’t have much of an appetite and my husband says I’ve been kind of short-tempered. Other people seem to handle stress okay... why am I so weak?

Question: Why is Nancy so stressed?

5. W: We really don’t get a lot of quiet time these days. My brother recently went to a meditation centre where he didn’t speak for three days. He said, after three days, he noticed how much noise there is everywhere.

M: I think being connected to the world 24 hours a day, 365 days a year isn’t healthy. We sometimes need to be alone in order to think.

W: And you can’t think if it’s noisy.

Question: What are the speakers talking about?

Section B

*In this section, you will hear **two** long conversations. Each conversation will be read only **once**. At the end of each conversation, there will be a **one-minute** pause. During the pause, read the questions and make your answers on the **answer sheet** with a single line through the center.*

Conversation One

*Listen to the conversation. Then read the **four** choices marked **A**, **B**, **C** and **D**, and decide which is the best answer according to what you hear. Mark the corresponding letter on the **answer sheet** with a single line through the centre.*

W: Hi, my name is Jenny. I was wondering if you could help me. This is my first week here and I’d like to find out about any societies that could be good for me.

M: Of course. Well, we have literally hundreds of socs here—‘soc’ is often what we call societies. What sort of thing are you interested in joining?

W: I’m really into health and fitness.

M: Oh, there are a number of socs that might suit you. Let’s start with the ones closest to where we’re standing now. A12, that’s where you’ll find the Vegetarian Soc, which is run by Paul, and two rooms along you’ll be able to find Peter, who’s in charge of the Vegan Soc, so that’s in A14. Peter and Paul are actually brothers. Both of them are really nice.

W: I don’t think either of those socs are for me—I like meat too much, I’m afraid.

M: Maybe the Health Eating Soc then? If you go down the corridor and past the library, you’ll come to Room C18. where you’ll find Catherine, who can fill you in about their events and activities.

W: Thanks, I may well do that. But you mentioned fitness—that’s more like the kind of thing I’m looking for. What about societies for doing some sort of cardiovascular exercise?

M: All of the main types of exercise are covered here. What exactly are you looking for? Cycling, rowing, swimming?

W: Mm, none of those are really my kind of thing—I’m more of a runner.

M: In that case, definitely head for the gym. Go through the main building, and on your way you’ll probably see the Push and Pull Soc, but if I were you, I’d steer clear of that. The people in it are all

a bit weird. So carry on past them and you'll find Sarah, who runs the Hot Air Soc.

W: Sounds intriguing. What do they do—organise races and running events?

M: They do, yes, and other sports as well, like rowing in the interuniversity boat races. That's a lot of fun. The whole university turns out to support them. But if it's only running you want to do, go see the Road Running Soc out in the car park. The person running their stall today is Arthur.

W: Great. Well, that should keep me busy, lots of interesting stands to visit.

M: Yes, there's so much to choose from.

Conversation Two

*Listen to the conversation, and complete the sentences according to what you hear with **one word** for each blank. Write the answers on the **answer sheet**.*

M: Today, I have with me Lily Williams. Let me introduce her and what we're going to talk about. She and her husband, some ten years ago, gave up their careers with established business organisations and set about creating their own business. Hence the title of the book she's written, called 'Breakout-Life Beyond The Corporation'. And she says they've been elated by their successes, often driven to tears by near failure, but never have they wanted to return to work in some else's large company. Lily, welcome.

W: Nice to be here.

M: Not a single glance back?

W: Not a single glance backwards. Occasionally a glance sideways, thinking I wish I was over there, but never backwards. No, I don't think either of us has ever wanted to go back to working for employers. I think gradually, as you do your own thing, you actually become more and more arrogant and I'm not sure we're employable any more. In fact, in the book I did talk to a fair number of entrepreneurs, a lot of people, and they didn't all succeed. A few of them did fail and that's obviously sad, but of the ones that have failed some have actually gone off and started new ventures, so I think it's like a drug actually. I think once you're on it, I'm not sure you can ever get off it.

M: Now why did you decide to break out, because you had comfortable jobs, secure jobs, did you not?

W: Yes. It's very much a desire just to do your own thing and perhaps not necessarily fitting in and not particularly liking to be told what to do and always feeling, well, maybe you could do it slightly better yourself, and wanting, just really, independence. And people have very different motives for wanting to break out. For some people it's money, which of course is attractive and I'm not saying no to the money, um... but independence was the key thing.

M: Now as you presumably sat down ten years ago and discussed it—I don't know quite how the circumstances arose what did you... you sat down with your husband and you said 'what are we going to do?'—what considerations were there, what were the arguments you had about whether or not to?

W: It really hinged on whether or not we were going to be happy carrying on doing what we were doing, working for large companies, and if we weren't going to be happy doing that, we should try the other, which was start up a business ourselves. So it was really a question of happiness and being interested and enjoying what we were doing, and once we'd got that far and decided we were just going to do our own thing, then it came down to real practicalities, you know, how would we find the money, would we be able to survive while we were doing it, would we be able to raise the money, and obviously really really important, what were we going to do, what was the business we were going to start?

M: And how did that resolve itself, the last question?

W: The last question resolved itself, I mean, we were looking for a particular sort of business, looking for a business that we had some sort of experience in because that's very important, I think. If I'm giving advice to other people, it's to try and do something you know about.

Section C

*In this section, you will hear **five** short news items. Each item will be read only **once**. After each item, there will be a **fifteen-second** pause. During the pause, read the question and the **four** choices marked **A, B, C** and **D**, and decide which is the best answer. Then mark the corresponding letter on the **answer sheet** with a single line through the centre.*

16. A new study found that a majority of retired people who experienced virtual reality (VR) said they liked using the technology. The study is part of an effort that aims to find ways older adults, known as seniors, can use VR systems. Earlier research has shown the technology can improve emotional health and reduce loneliness in some individuals. It might also help dementia patients better deal with their condition. The seniors chose from different VR environments offering digital experiences that lasted several minutes. They wore headsets providing a full 360-degrees of sights and sounds to recreate realistic digital environments.
17. A new study suggests that the climate change diet might not be good for polar bears. With Arctic sea ice declining, many polar bears have to go to land for their diets during parts of the summer. A study looking at Hudson Bay polar bears tried to figure out if the creatures can keep their healthy weight levels on such a diet. Researchers found that the majority of the creatures are losing weight no matter what they do to try to increase it. Some bears find a lot of food-berries, eggs, sea birds and even caribou antlers. But such foods take a lot of effort. The bears use so many calories trying to eat that they end up losing weight and burning more energy than they take in, the study says.
18. A new study suggests Jupiter's icy moon Europa produces much less oxygen than previously thought. The study was based on data collected by the American space agency NASA's Juno spacecraft. Juno is an orbiter that has been studying Jupiter since July 2016. The study involved Juno's instruments measuring levels of oxygen and hydrogen molecules coming from Europa's atmosphere. The data showed the icy moon produces about 1,000 tons of oxygen every 24 hours, NASA said that amount would be enough to keep a million humans breathing for a day.
19. There have been a few very powerful ocean storms in the last 10 years. The expectation of more to come has some experts proposing a new category of large hurricanes: Category 6. Studies have shown that the strongest tropical storms are getting more powerful because of climate change. The traditional five-category Saffir-Simpson scale was created more than 50 years ago. But two scientists suggested in a new study that the scale may not show the true power of the strongest storms. They propose a sixth category for storms with winds faster than 309 kilometers per hour.
20. American higher education experts are concerned that small colleges closed at a high rate in 2023. They say college closures can prevent students from finishing their study programs and take away some of the country's unique education offerings. The website Higher Ed Dive notes 26 American colleges and universities either closed or announced their plans to close in 2023. The colleges that closed were privately funded and mostly small. They were facing a loss of money and a drop in student numbers. Some schools closed completely, while others combined with nearby schools.

Section D

*In this section, you will hear **one** monologue. The monologue will be read **twice**. After listening, answer the questions using **not more than five words**. Write the answers on the **answer sheet**.*

Good afternoon, everyone. So today's talk is divided into two parts. In the first part I'm going to try to explain the decision-making process behind choosing what stories to publish in a newspaper. Later, in the second part of my talk, I will explain the process of producing a print newspaper.

So first of all, I'd like to consider the question 'What is news?' It's a question I get asked all the time. Well, to put it in very simple terms, it is 'anything new'. However, that definition is extremely

vague and open to interpretation. In other words, it doesn't really help a newspaper editor decide what stories to include. So a better question would be 'What factors help newspaper editors decide which stories make it into their newspaper?' Well, of course, it's a slightly different process for TV news programmes because TV editors have to be more selective about what to include. TV news shows are restricted by length and can be as short as five minutes. Newspapers don't have these restrictions but even with print or online newspapers, there are many more stories vying for attention than those that actually appear in the final edition. Returning to the question then, what makes a news story newsworthy? What is it that grabs your attention and makes you want to interact with the story? Basically, it is anything with personal relevance for the reader. This presents us with two more questions: How do we as newspaper editors decide what is relevant and what is not? And what is it that makes a story personally? The answer is that it very much depends on your audience, and a good newspaper editor chooses stories based on their relevance and personal interest to their audience. He or she needs to know what sells their newspaper because at the end of the day, if our newspapers don't sell well, we don't have a job. A successful editor doesn't just think about their audience, they also need to keep an eye on the competition, and this is the final factor I want to address in this part of my talk. To clarify, the competition is with other newspapers or news channels. If a story is getting a lot of attention and coverage elsewhere, then, as an editor, you need to find a way to include it in your newspaper.

So, now to move to the second part of my talk, which is the process of putting together an edition of a print newspaper. The first stage is a continuous process in which journalists are collecting and writing up stories and the marketing people are positioning the advertisements, and this is known as the news gathering stage. As soon as an article is finished, it's passed on to the second stage of the process editing. Both content and language have to be edited. Facts may need to be checked and changes made to the language to ensure the tone of the piece fits the style of the newspaper and the message the editor wants to convey. There may be a number of different editors, depending on the size of the newspaper, and each editor needs to use a contrasting colour to edit so that it's easy to see who has made the changes. For example, sub-editors use red, the chief sub-editor uses blue and the editor uses green.
