

2018 年全国大学生英语竞赛初赛(D 级)

2018 National English Competition for College Students (Level D - Preliminary)

(Total:150 marks Time:120 minutes)

Part I Listening Comprehension (30 marks)

Section A (5 marks)

In this section, you will hear five short conversations. Each conversation will be read only once. At the end of each conversation, one question will be asked, and you have fifteen seconds to read the four choices marked A, B, C and D, and decide which is the best answer. Then mark the corresponding letter on the answer sheet with a single line through the centre.

1. A. The man got five copies of his paper.
B. It cost the man one pound altogether.
C. The man's paper wasn't photocopied.
D. The photocopy machine is out of paper.
2. A. He is going to work in Paris.
B. He is going to a party in Paris.
C. He will take a few courses in a French university.
D. He will attend an interview by a French magazine.
3. A. He doesn't like to go out and meet customers.
B. He doesn't know how to get on with his boss.
C. His colleagues are not very friendly to him.
D. He has to stay up late to do planning projects.
4. A. It isn't as interesting as last year's.
B. There are lots of tourists attending it.
C. Young people shouldn't be allowed to attend.
D. Everything is OK except the weather.

5. A. How to make a speech.
B. How to be a good listener.
C. A good topic for discussion.
D. The problems in communicating.

Section B (10 marks)

In this section, you will hear two long conversations. Each conversation will be read only once. At the end of each conversation, there will be a one-minute pause. During the pause, read the questions and make your answers on the answer sheet with a single line through the centre.

Conversation One

Listen to the conversation, mark each statement as either true (T) or false (F) according to your listening.

6. The deadline for applications is in three months.
7. Mr. Evans doesn't think the University of Bristol has got a good course.
8. Amy's parents want her to study in London.
9. Amy has studied German for eight years and she is good at it.
10. German universities usually offer scholarships to foreign students.

Conversation Two

Listen to the conversation, mark each question as A, B, C or D according to what you hear.

11. Which of the following type of pollution is NOT mentioned in the conversation?
A. Soil pollution. B. Air pollution. C. Noise pollution. D. Light pollution.
12. What used to cause air pollution in Los Angeles?
A. Gases from forest fires.
B. Too many cars on the road.
C. Factories and coal-fired power stations.
D. Gases from cars and poor weather conditions.
13. How much does the Chinese government spend to solve the air pollution?
A. \$18 million. B. \$180 billion. C. £18 million. D. £180 billion.
14. Which country has the city with the worst air quality according to the World Health Organization?
A. The UK. B. Iran. C. The United States. D. China.

15. What can we learn from the conversation?

- A. The woman has been to China several times.
- B. Light pollution has always troubled many countries.
- C. Air condition in London is still very bad at present.
- D. China is using renewable energy to replace coal.

Section C (5 marks)

In this section, you will hear five short news items. Each item will be read only once. After each item, there will be a fifteen-second pause. During the pause, read the question and the four choices marked A, B, C and D, and decide which is the best answer. Then mark the corresponding letter on the answer sheet with a single line through the centre.

16. What are people advised to do to fight seasonal depression?

- A. To exercise as much as possible.
- B. To make a trip to a warmer place.
- C. To play computer games with friends more often.
- D. To spend time with friends and get more sunlight.

17. What percentage was China's economic growth expected to reach in 2017?

- A. 5.9.
- B. 6.5.
- C. 6.9.
- D. 9.6.

18. Why will face recognition be used at the Tokyo 2020 Olympics?

- A. To ensure the safe operation of the Games.
- B. To distinguish athletes from spectators.
- C. To scan and track all participants during the Games.
- D. To provide faster entry for official ID card holders.

19. What is NOT true about the Year of the Dog stamps?

- A. They show some traditional elements on the design.
- B. They are issued by Canada Post and China post jointly.
- C. The domestic-rate stamp features a dog ready to rush forward.
- D. The international-rate stamp depicts a dog with a raised paw.

20. Why was school canceled in Yakutia?

- A. The weather had turned much colder than usual.
- B. The traffic was bad because of the terrible weather.
- C. Local police were having a military exercise nearby.
- D. A car accident had caused some students' death.

Section D (10 marks)

In this section, you will hear two short passages. The passages will be read twice. After each passage, there will be a thirty-second pause. During the pause, write the answers on the answer sheet.

Dictation

Listen to the passage. For questions 21—25, fill in the blanks with the exact words or phrases you hear.

Bluetooth technology is a method of enabling short-range communication between devices. For example, computers can connect to other computers, headsets can connect to cell phones, and headphones can connect to MP3 or MP4 players, (21) _____.

In the past, wireless communication devices were too large and expensive for common use. However, there have been a lot of rapid advances in miniaturization recently. Also, more efficient forms of mass production are now possible. Both of these developments (22) _____ the use of Bluetooth technology in a wide range of common items. Inventors are constantly investigating new ways of involving it in day-to-day life. This has resulted in the creation of a Bluetooth luggage tag.

The Bluetooth luggage tag is called The Bluebird. It is designed to notify a traveller that their bag is in close range. This makes it possible for them to know when their luggage is coming down the airport conveyor belt. It will also flash to make it easier for the person to identify his bag and will help him track multiple bags, (23) _____ a bag being left behind by mistake.

The Bluebird also stores (24) _____ information, enabling authorities to identify who the luggage belongs to simply by scanning it from Bluetooth enabled computers. (25) _____, this will mean that the age-old problem of airlines losing people's luggage is finally over.

Summary

Listen to the passage. For questions 26—30, complete the notes using no more than three words for each blank.

People are sensitive to interpersonal distance. The distance can be different with (26) _____. However, people can decide their comfort zones of interpersonal distance. Researchers mention (27) _____ interpersonal distances in social interaction. Intimate distance is the closest we allow, while people can chat with their friends at (28) _____. Distance between employers and employees is social distance, also called (29) _____, whereas public distance is the farthest with (30) _____ communication.

Part II Vocabulary & Grammar (15 marks)

There are 15 incomplete sentences in this section. For each blank there are four choices marked A, B, C and D. Choose the one that best completes the sentence. Then mark the corresponding letter on the answer sheet with a single line through the centre.

31. Mawi's father, once a _____ doctor, became a guard because no other work was available.
A. respectable B. respecting C. respective D. respectful
32. Kathy and her best friend had persuaded their parents to buy them matching scarves, _____ they each tied around their neck as a _____ of their friendship.
A. what; knot B. what; goal C. which; symbol D. which; test
33. Our dreams usually reflect _____ is going on in our own lives and they are sometimes about problems we ignore _____ we are awake.
A. who; when B. that; while C. which; as D. what; while
34. An Australian man, who _____ for years, finally discovered the cause of his backache last month.
A. suffers B. has been suffered C. is suffering D. has been suffering
35. What _____ the egg more extraordinary is that the bird that _____ it—called "elephant bird"—became extinct about 400 years ago.
A. made; lays B. made; lay C. makes; laid D. makes; lied
36. I thought it would take me 30 minutes to get to the Palace Museum, but I _____ when I took a wrong turn and it took almost an hour.
A. killed time B. lost time C. ran out of time D. spent my time
37. Diana doesn't have time, but if she _____ more time, she _____ to the gym.
A. has; has gone B. will have; goes C. had; will go D. had; would go
38. Wealth cannot buy happiness. It can make life much more comfortable, _____.
A. however B. either C. neither D. yet
39. Good leaders tell people why they are doing something, _____, to explain what they believe.
A. in other words B. in a word C. in addition D. in a minute
40. _____ the criticism, the ending of the movie leaves us with a warm feeling and the leading actors do an excellent job of making us believe that anything is possible if you put your mind to it.
A. Above B. Despite C. Beyond D. Without
41. The bus driver was going at normal speed when a truck appeared in front of him _____ and he did not have time to stop.
A. at last B. all of a sudden C. once in a while D. in the end
42. Research said that young Chinese people are _____ expanding the sharing economy and are more eager to spend money on experiences, _____ possessions.
A. committed to; rather than B. willing to; as well as
C. curious about; in spite of D. satisfied to; apart from

43. —How are you getting on with your term paper? Do you need my help?

—_____, but I think I'm all right.

A. Yes, thanks

B. That's OK

C. That's very kind of you

D. It's none of your business

44. —What seems to be wrong with you, Jane?

—Something is missing, but I can't think what it could be.

—_____ We're on the train and it's starting. And ... Where's Tommy?

—Tommy? Oh, God!

A. Lucky you!

B. Forget it!

C. Congratulations!

D. See you later.

45. —So do you have a course called "teamwork"?

—It's not a timetabled subject, but it's an approach that we try to include in the normal teaching.

—_____

—We're interested in training young people to play their role in adult life and part of that is in a workplace, and it's rare that anyone in a workplace works just by themselves.

A. When do you usually conduct this kind of teaching?

B. Why do you consider teamwork to be such a vital skill?

C. How do you teach students to organise their groups?

D. How long will you try to train these young people?

Part III Cloze (10 marks)

Read the following passage and fill in each blank with one word. Choose the correct word in one of the following three ways: according to the context, by using the correct form of the given word, or by using the given letter(s) of the word. Remember to write the answers on the answer sheet.

Jesse was a straight -A student—a result of countless hours spent studying during college. She graduated at the top of her class and believed she would have no problem (46) _____ (get) a job. However, after ten interviews and no job offers, she was starting to wonder (47) _____ was wrong. “At first I couldn't understand it, I mean, I'm intelligent and diligent, why couldn't I get a job?” In spite of having “academic” intelligence, Jesse was missing the intelligence that many (48) _____ (employ) are now looking for, emotional intelligence.

Emotional intelligence (EI) is the ability to understand your own emotions and the emotions of people around you. More and more companies use EI assessment tests to recruit (聘用) new staff. They have found that people with high EI form better (49) rela_____ with their colleagues and can manage (50) _____ (they) better. This benefits the company.

For example, the French cosmetics company, L'Oreal, started to track the emotional intelligence of its employees in relation (51) _____ their productivity. Their studies showed that employees with high EI scores sold goods worth in total almost \$100,000 more than their colleagues with low EI scores. Clearly, employees with high EI are (52) _____ (much) valuable to their companies.

Jesse thinks that she spent so much of her college life studying alone that her social skills did not develop well. (53) Det _____ to get straight As, she had not played any team sports or participated in any school groups, both of (54) _____ would have helped develop social skills and EI. She did not know how to work with others, a key to success in most businesses.

(55) Al _____ Jesse might not have high EI now, psychologists believe that she can improve it. She needs to identify people who are “natural” leaders, who work well with others and are great motivators. She should watch what they say and how they act in different situations, and try it out in her own life.

Part IV Reading Comprehension (35 marks)

Read the following passages. Each passage is followed by several questions. Respond to the questions using information from the passage. Remember to write the answers on the answer sheet.

Section A (5 marks)

Questions 56—60 are based on the following passage.

Michelangelo, Napoleon, Thomas Edison, and Madonna all have something in common—they have all claimed to only need four hours' sleep a night. Does this prove that the key to success is to sleep less? On the contrary, most people need much more sleep to keep healthy, regulate their emotions, and strengthen cognitive skills such as memory. What actually happens during sleep that recharges our body and makes us healthy?

A sleep cycle, which usually takes about 90—110 minutes, is divided into two phases, non-rapid eye movement (NREM) and rapid eye movement (REM). During the first stage of NREM, which is drowsiness, our muscle activity slows down, but we are still not fully asleep. After ten minutes, our bodies enter the second stage of NREM, light sleep, which lasts about twenty minutes. Our breathing and heart rate slow

down and then we enter deep sleep, stages three and four. These are the most restorative (有助于恢复健康和体力的) stages. Our blood pressure drops, growth and development hormones (荷尔蒙) are released, and energy is regained. We then enter the second phase of the sleep cycle, REM sleep, which is when our brain is most active and the majority of dreams occur. Scientists believe that dreaming allows the processing and retention of memories. This phase usually lasts about ten minutes and then the cycle is repeated. A person may go through four or five sleep cycles a night.

Sleep deprivation, not getting enough sleep, has a number of negative consequences. Besides feeling tired and moody, drowsy people usually have more difficulty remembering facts, concentrating on tasks, and reacting to situations. For example, in the USA alone, more than 56,000 car accidents a year are caused by drivers feeling sleepy.

So, although Thomas Edison regarded sleep as a waste of time, most people do need more than just a few hours of sleep a night. It is the easiest way to become a smarter and healthier person.

Questions 56—60

Complete the chart with no more than three words from the passage.

Facts about Sleep		
• Sleep cycle	NREM	• (56) _____: Lasts for about ten minutes; Muscle activity slows down. • Light sleep: Lasts for about (57) _____; Breathing and heart rate slow down. • Deep sleep: (58) _____ drops, growth and development hormones are released, and energy is regained.
	REM	• Lasts for about ten minutes; • Brain is most active and the majority of dreams occur.
• Negative consequences of (59) _____	• Feeling tired and moody; • Hard to remember facts, (60) _____ tasks, and react to situations.	

Section B (10 marks)

Questions 61—65 are based on the following passage.

Three fishermen lost at sea for 289 days landed 5,500 miles from where they started, but is their story really true?

(61) _____ It was a sunny day, but things changed as night fell. A storm came in, making it difficult to find the fishing nets they had left in the water. The boat soon ran out of fuel and the men became frightened as they drifted out to sea, unable to get back to the shore.

(62) _____ Desperate to stay alive, the men drank rainwater and ate raw fish and birds. The survivors say that two of the men had trouble eating, eventually dying of starvation.

(63) _____ To keep their spirits up and their minds off the sharks that occasionally bumped against the boat, they sang traditional songs, read the Bible, and kept hoping for a miracle.

One of the fishermen said, “We saw many boats pass by us. When that happened, it was depressing and we didn’t talk for hours. But I never imagined we would die.” It took over nine months but his optimism paid off. A Taiwanese ship found the fishermen and brought them to the Marshall Islands, 1,200 miles north. During the two-week journey, the Mexican fishermen say they were able to rest and eat. When they arrived in port, they all looked happy and healthy. However, some people believed the three fishermen looked too good.

(64) _____ When the man was rescued, he was extremely thin and it took him months to recover. However, the three rescued fishermen, missing for much longer, did not have any of the noticeable health problems.

(65) _____ Many think the fishermen were actually involved in an illegal smuggling operation that went wrong. Others wonder what really happened to the two fishermen who did not survive. The fishermen insist they are telling the truth, but many question their story.

Questions 61—65

Complete the passage with the following sentences. There are two extra sentences that you do not need to use.

- A. Their small boat had no shelter, no navigational equipment, and held only a small amount of food and water.
- B. In all the historical records of sailors lost at sea, the longest someone had been missing was 76 days.
- C. On October 28, 2005, five fishermen left the coast of Mexico on a three-day fishing trip.
- D. Unfortunately, two fishermen died of food poisoning.
- E. The survivors have different stories about how they became lost.
- F. Some experts argue it is almost impossible for their boat to have floated from Mexico in a northern direction to the Marshall Islands as quickly as it did.
- G. They tried not to lose hope, but life on a small boat can be boring, scary, and depressing.

Section C (10 marks)

Questions 66—70 are based on the following passage.

Human beings learnt to talk about half a million years ago. Yet it was only about 5,000 years ago that our ancestors learnt to write.

They first wrote by using pictures. These pictures might mean just what they showed—for example, the moon or a tree. Such pictures are called pictographs (象形文字). But sometimes the drawings presented ideas which are suggested by the pictures. That is, three trees might mean a forest. An eye with tears might mean sorrow. These pictures are called ideographs (表意文字). Here is a drawing cut into a rock by North American Indians.

This means: “A brave chief went on a journey with five canoes. The journey took three days.” Showing the chief on a horse suggests “travelling”, for in fact he went in a canoe, not on horseback. The eagle suggests the chief’s courage. Three suns under a curved sky suggest three days.

The ancient Egyptians developed a beautiful form of writing about 5,000 years ago. This writing shows objects such as animals, birds and people. These are called hieroglyphs (古埃及用的象形字). Some hieroglyphs represented things, some ideas, and some sounds. For example, if we used this system for English, a picture of a loaf of bread might mean just bread, or maybe food in general, or the sound “b” with which the word “bread” begins. The ancient Egyptians used over 700 different hieroglyphs.

The alphabet was invented by the Phoenicians about 3,500 years ago. The Phoenicians lived where Syria and Israel are now. The alphabet was perhaps the greatest invention of mankind. Like many great inventions, it was extremely simple.

In an alphabet, symbols represent sounds, not objects or ideas. Any symbol can be used for an alphabet. For example, “*π+” could spell “cat” if we all agreed that these symbols represent the sounds “c”, “a” and “t”. The 26 letter A—Z alphabet is the most widely used in the world, but there are over fifty alphabets in use. If we use an alphabet, we know how any word that we read sounds. We can also write down any word we hear. Words can be easily arranged in lists “alphabetically”. Using a keyboard is also easy, as an alphabet contains only a few symbols (letters), and so few keys are needed.

Most languages use alphabets, but Chinese uses “characters”. Characters are like drawings. They

represent whole words, not single letters. There are therefore thousands of different characters in Chinese, one for each word. You cannot know how a Chinese character sounds simply by looking at it. But if you have seen it before, you will know what it means without knowing how it sounds.

Questions 66—70

Answer the following questions according to the passage.

66. Which is much earlier for human beings to learn, to talk or to write?

67. How did North American Indians present “three days” long before?

68. How many hieroglyphs did the ancient Egyptians use?

69. Who invented the alphabet?

70. What is the difference between alphabets and Chinese characters?

Section D (10 marks)

Questions 71—75 are based on the following passage.

What are the basic requirements of life and what do we need next after those? When you answer these questions, you are doing the same kind of work that American psychologist Abraham Maslow did in his “hierarchy (层次) of needs” theory. The theory states that we must progress through various levels, satisfying the needs of each before being able to move on to the next. He thought individuals could eventually fulfill their potential if they could just satisfy their fundamental needs.

These most basic needs form the bottom of Maslow's hierarchy and are referred to as physiological needs. These needs include our needs for water and shelter. Unless these are satisfied, we cannot move to the next level, safety needs. We need to feel secure in our environments, and this feeling of security usually means protection and freedom from fear. The third level is the need for love and belonging. People satisfy this need through their families and homes, as well as by joining and forming groups, making friends, and being a part of a team.

In the fourth level, the need for esteem refers to the need of people to be recognised. Here, they want to feel that others think highly of them; they may need praise and want to feel good about themselves. They may try to accomplish this by achieving set goals. Self-actualisation, the fifth level, is the summit of Maslow's hierarchy of needs. It is the quest (追求) to reach one's full human potential. In this process people tend to have needs such as truth, justice, wisdom, and spiritual fulfillment.

Despite the appealing logic of Maslow's hierarchy, it seems to have some limits. Extensive research has suggested that there is little evidence for the ranking of levels and the argument of a definite hierarchy. Moreover, the concept of self-actualisation is not clear, and there is no evidence to show that every individual can reach it.

Maslow was the first psychologist to carry out academic research on human needs. He believed everybody should be encouraged to discover their vocations (使命) in life and try their best to make life better. These are still important lessons today.

Questions 71—75

Complete the summary with a maximum of two words from the passage, changing the form where necessary.

American psychologist Abraham Maslow used his “hierarchy of needs” theory to show that we must meet a number of (71) _____ before we can fulfill our potentials. At the lower levels, we need food and shelter, the feeling of (72) _____, and a sense of belonging. After those, we need to seek (73) _____ for our abilities before finally (74) _____ to the state of self-actualisation. Although there are problems with Maslow's approach, it still offers (75) _____ today.

Part V Translation (15 marks)

Section A (5 marks)

Translate the following paragraph into Chinese. Remember to write the answers on the answer sheet.

76. Email has become an accepted and expected way to keep in touch with professors at universities, and when done correctly, can help students and professors communicate. However, some professors are finding that it can also cause major misunderstandings. Informality and inappropriateness are the causes of many misunderstandings in emails. One professor says that emails have to be written in formal, standard English, and be professional or business-like in tone. Additional problems occur when the tone of a message is misunderstood.

Section B (10 marks)

Translate the underlined sentences into English by using the hints given in brackets. Remember to write the answers on the answer sheet.

77. 通常情况下,人们会在新年伊始决心取得比上一年更多的成就。(resolved to)

然而怎么做到这一点呢?有些人决心“对一切都说可以”——我始终认为这种决心很古怪。其他人则相反,决心更频繁地说不。78. 实际上,这两种极端的任何一种都可能导致不好的结果。(lead to)

拿一直保持忙碌状态的决心来说,“工作狂”召唤着那些无法拒绝请求的人。根据2017年发表在《管理学会发现》杂志上的一篇研究报告,专注于任务可能减轻工作狂的最糟糕影响,但对岗位忧心忡忡或者过于野心勃勃仍然可能导致健康问题。

决心做多件事情还会带来其他风险。79. 如果你尝试做不止一件事情,那么你就不会像专注于一项任务那样达到高效率。(as ... as)2001年发表的一篇论文发现,与那些致力于一项工作的人相比,忙于在多项任务之间切换的人,要花费更长的时间来解决复杂的数学问题。80. 2015年对米兰法官的另一项研究表明,那些试图同时处理多宗案件的法官,结果花费了更长时间才完成审理。(定语从句)

话虽如此,人们对忙碌的崇拜是强大的。如果你在新的一年里以减少工作为目标,你很快就会对自己拒绝的工作以及由此可能错失的机遇感到内疚。我总是想起情景喜剧中过于进取的心理医生弗莱泽的反驳,当他的兄弟奈尔斯提醒他“更少就是更多”的时候,他脱口而出道:“81. 对,但如果更少就是更多,那么这个‘更多’会是多少呢?”(how much)

Part VI Error Correction (10 marks)

Proofread the passage as required. Each indicated line contains a maximum of one error. Correct the passage in the following ways: for a right line, put the sign “√” in the corresponding blank; for a wrong word, underline the wrong word and write the correct one in the blank; for a missing word, mark the position of the missing word with the sign “^” and write the word you believe to be missing in the blank; for an unnecessary word, cross the unnecessary word with the sign “\” and put the word with the sign in the blank. Write the answers on the answer sheet.

For example:

One of my favourite writers are Charlotte Brontë. She was born in the early

is

nineteenth century when women had far fewer opportunities ^ they have now.

than

She lived in a small village in Yorkshire and she took great pleasure in walking

✓

on the moors ~~where~~ near her home.

where

Covering only 41,293 square kilometres, Switzerland is one of Europe's smallest countries.

It is only one twelve the size of France. Yet it is also one of Europe's beautiful, 82. _____
 varied and prosperous land. Perhaps the greatest attraction for most tourists is 83. _____
 the Alps, Switzerland's famous mountains, and highest in Europe. But equally 84. _____
 attractive for tourists are the many wonderfully clear lakes, extensive forests, and 85. _____
 long fertile valleys, with their picturesque villages and interesting cities. Tourists visit
 Switzerland all the year round, though winter sports are a special attraction, and tourism 86. _____
 is a major source of income. The Swiss also export dairy products such as cheese, and
 manufacture a wide range of high quality goods, for example watches, optical equipments 87. _____
 and textiles. The Swiss are renowned too for their business skills, and many international
 banks and insurance firms have their headquarter there. 88. _____

There is no Swiss language—you cannot talk Swiss. About 70% of the population
 speak German, about 20% French, and the remainder Italian. Moreover, since 1815,
 Switzerland had been a neutral country. Though it maintains an army and an air force, 89. _____
 it has taken a part in no wars. Because of this traditional neutrality, Switzerland is a 90. _____
 country where is not a member of the United Nations. 91. _____

Part VII IQ Test (5 marks)

There are five IQ Test questions in this part. Write the answers on the answer sheet.

92. What does the following sentence mean in Chinese?

Like father, like son.

93. Change one word so that the sentence makes sense. Underline the word you are taking out and write
 your new word on the line.

My dog laughs when people ring the doorbell.

94. Which pattern continues the following sequence?

95. What number should replace the question mark?

96. Which is the odd one out?

A.

B.

C.

D.

E.

F.

G.

Part VIII Writing (30 marks)

Section A (10 marks)

97. Computer games and video games are becoming more and more popular. Write a report in 80—100 words based on the information in the following chart on the answer sheet.

Section B (20 marks)

98. We now have photography, film, radio, TV, the telephone, mobile phone and many other electronic devices. Some people say reading and writing are no longer important.

What is your view on this phenomenon? Write an essay in at least 120 words on the answer sheet.

2018 National English Competition for College Students

(Level D - Preliminary)

参考答案及作文评分标准

Part I Listening Comprehension (30 marks)

Section A (5 marks)

1—5 CABBD

Section B (10 marks)

6—10 FFFTT 11—15 ADDBD

Section C (5 marks)

16—20 DCDBA

Section D (10 marks)

Dictation

21. all without wires 22. have led to 23. preventing 24. large amounts of 25. Hopefully

Summary

26. culture and gender 27. four/4 28. personal distance 29. formal interaction 30. one-way

Part II Vocabulary & Grammar (15 marks)

31—35 ACDDC 36—40 BDAAB 41—45 BACBB

Part III Cloze (10 marks)

51. to 52. more 53. Determined 54. which 55. Although

Part IV Reading Comprehension (35 marks)

Section A (5 marks)

56. Drowsiness 57. twenty minutes 58. Blood pressure 59. sleep deprivation 60. concentrate on

Section B (10 marks)

61—65 CAGBF

Section C (10 marks)

66. To talk.

67. They drew three suns under a curved sky.

68. Over/More than 700.

69. The Phoenicians.

70. Alphabets represent single letters, while Chinese characters represent whole words.

Section D (10 marks)

71. basic needs/ fundamental needs 72. security 73. recognition 74. progressing/ moving
75. important lessons

Part V Translation (15 marks)

Section A (5 marks)

76. 在大学里,电子邮件已经成为一种被认可并备受期待的与教授保持联系的方式。使用正确时,可以有助于学生和教授之间的交流。然而,一些教授发现,它也会引起很大的误解。不拘礼节、不得体是邮件中产生许多误解的原因。一位教授说,邮件必须用正式的标准英语,在语气上必须专业、郑重其事。邮件内容的语气一旦被误解,其他问题也会随之而来。

Section B (10 marks)

77. People usually start a new year resolved to achieve more than the previous year.
78. In reality, either of the two extremes could lead to bad outcomes.
79. If you try to do more than one thing, you will not be as efficient as when you concentrate on a single task.
80. Judges who tried to handle several cases simultaneously took longer to complete them.
81. "Yes — but if less is more, how much will this 'more' be! "

Part VI Error Correction (10 marks)

Covering only 41,293 square kilometres, Switzerland is one of Europe's smallest countries.

It is only one twelve the size of France. Yet it is also one of Europe's beautiful, varied and prosperous land. Perhaps the greatest attraction for most tourists is the Alps, Switzerland's famous mountains, and ^ highest in Europe. But equally attractive for tourists are the many wonderfully clear lakes, extensive forests, and long fertile valleys, with their picturesque villages and interesting cities. Tourists visit Switzerland all the year round, though winter sports are a special attraction, and tourism is a major source of income. The Swiss also export dairy products such as cheese, and manufacture a wide range of high quality goods, for example watches, optical equipments and textiles. The Swiss are renowned too for their business skills, and many international banks and insurance firms have their headquarter there.

There is no Swiss language—you cannot talk Swiss. About 70% of the population speak German, about 20% French, and the remainder Italian. Moreover, since 1815, Switzerland had been a neutral country. Though it maintains an army and an air force, it has taken a part in no wars. Because of this traditional neutrality, Switzerland is a country where is not a member of the United Nations.

82. twelfth
83. lands
84. the
85. wonderful
86. ✓
87. equipment
88. headquarters
89. has
90. a
91. which/that

Part VII IQ Test (5 marks)

92. 有其父,必有其子。
93. laughs; barks
94. D. (Each time two symbols touch they disappear at the next stage and are replaced by two new symbols.)
95. 45. ($13 \times 4 - 7 = 45$)
96. E (B is the same as F; A is the same as D; C is the same as G.)

Part VIII Writing (30 marks)

97. (10 marks)

Omitted.

98. (20 marks)

Omitted.

作文评分标准:

一、评分原则:

1. 本题满分为 Section A 10 分;Section B 20 分,按四个档次给分。
2. 评分时,先根据文章的内容和语言初步确定其所属档次,然后以该档次的要求来衡量,确定或调整本档次,最后给分。
3. Section A 词数少于 100 词或多于 140 的,Section B 词数少于 140 或多于 180 的,从总分中减去 2 分。
4. 如书写较差,以致影响阅卷,将分数降低一档。

二、各档次给分范围和要求

第四档(很好):Section A 9-10 分;Section B 16-20 分

完全符合写作格式的要求,覆盖多个内容要点,表达思想清楚,文字通顺,连贯性很好,基本上无词汇和语法错误。

第三档(好):Section A 6-8 分;Section B 11-15 分

基本符合写作格式的要求,有个别地方表达思想不够清楚,文字基本通顺、连贯,有少量词汇和语法错误。

第二档(一般):Section A 3-5 分;Section B 6-10 分

未恰当完成写作格式的要求,漏掉内容要点,表达思想不清楚,文字多处出现词汇和语法错误,影响了对写作内容的理解。

第一档(差):Section A 1-2 分;Section B 1-5 分

未完成写作格式的要求,明显遗漏主要内容,表达思想紊乱,有较多词汇和语法的重大错误,未能将信息传达给读者。

0 分

白卷;作文与题目毫不相关;内容太少,无法评判;所写内容无法看清。

2018 National English Competition for College Students

(Level D - Preliminary)

听力录音原文

Part I Listening Comprehension

Section A

In this section, you will hear five short conversations. Each conversation will be read only once. At the end of each conversation, one question will be asked, and you have fifteen seconds to read the four choices marked A, B, C and D, and decide which is the best answer. Then mark the corresponding letter on the answer sheet with a single line through the centre.

1. M: Can I have five photocopies of this paper, please? How much is it a copy?

W: It's ten pence a copy, but I'm afraid the machine's out of order at the moment.

Question: What do we learn from this conversation?

2. W: Hi, Jackie! We're going to a farewell party on Friday evening. Would you like to come?

M: To a party? Judy, I'd love to! Whose party is it?

W: My friend Ben's. He's going to Paris next week. He's got a great new job with a French magazine.

M: Wow! Good for him!

Question: Why will Ben go to France?

3. W: So Dan, how's your new job going?

M: The work's really interesting ... really different from my old job. You know, there're lots of planning projects, and going out and meeting different people, and researching markets and things ... and most of the people in the office seem very friendly. So, all that side of things is fine.

W: That sounds good.

M: Yeah, but I've got a bit of a problem with my boss somehow. When I first met her, she seemed very nice. Now she doesn't criticise me, but she just doesn't seem to take any of my suggestions seriously.

Question: What troubles Dan in his new job?

4. M: Hello. I'm Leo and I'm reporting from this year's Notting Hill Carnival. As usual the news is full of problems at the Carnival. So, what do people in the crowd think? Excuse me, Madam, what do you think of the Carnival?

W: Well, the young people dancing, the food and the costumes are wonderful but ... Carnival is really too big now. There're too many tourists; it isn't our Carnival any more. And it isn't safe.

M: Thanks.

Question: What does the woman think of the Notting Hill Carnival?

5. M: Rosemary, what are the most common situations where people have problems in communicating?

W: Probably one of the main situations is when people are not sure who they're talking to. For instance, going to a party and it's a room full of strangers. For most people that will be a difficult situation. The second problem is what they're talking about, so the content worries them for whatever reason.

M: Thank you.

Question: What are the speakers talking about?

Section B

In this section, you will hear two long conversations. Each conversation will be read only once. At the end of each conversation, there will be a one-minute pause. During the pause, read the questions and make your answers on the answer sheet with a single line through the centre.

Conversation One

Listen to the conversation, mark each statement as either true (T) or false (F) according to your listening.

M: Amy. Take a seat. Have you chosen a university yet? The deadline for applications is the end of the month.

W: I know. Mr. Evans. It's so difficult! If I choose the wrong subject ...

M: Don't worry. Let's talk through your options. Did you read the list I gave you?

W: Yes, but there're so many choices. I was thinking about applying to business school, and then training as an accountant after I graduate from university. Which university is best for business administration?

M: Well, University of Bristol is very good. It's got an excellent course, and I also know the course tutor there. You could e-mail him. He could tell you a lot about the course.

W: Thanks. That sounds like a good option.

M: So, what do your parents think?

W: They like the idea of business administration, but they want me to study somewhere closer to home, and ideally in Wales.

M: OK, then there's Swansea. It has an excellent reputation. You'd have to take an entrance exam, as there's a lot of competition for places. Would you like to study business administration with another subject?

W: I'd like to do something that uses my language skills.

M: What languages have you studied?

W: German for eight years, and I always do well in the exams.

M: Why don't you choose a university where you can study business administration and German? You can spend a year studying in Germany. Many German universities offer scholarships to foreign students. And it would be a great way to improve your career opportunities.

Conversation Two

Listen to the conversation, mark each question as A, B, C or D according to what you hear.

W: Hello, Rob. Have you heard that air pollution has been a serious problem affecting some of the big cities in China?

M: Yes, or better known as smog. I've experienced this in Beijing and it's not a nice thing to breathe in.

W: It certainly isn't good for your health. Do you know which country has the city with the world's worst air pollution, according to research by the World Health Organization?

M: Well, I think it is definitely China.

W: We'll find out if you're right later on. Let's talk more about the pollution problem. Pollution is a word describing anything that damages something pure. So light pollution is when a pure dark sky is spoiled by street lights and lights in the city.

M: And noise pollution is when loud or annoying sounds like traffic noise spoil a quiet and peaceful environment. The smog is a form of air pollution.

W: Yes. Smog used to be a problem in other major cities like London, which was from factories and trains.

M: In Los Angeles, fumes—that's the bad gases from car engines—and poor weather conditions used to cause poor air quality. But now, new laws and changes in technology mean the air in these cities is cleaner and safer. But why is it bad in China?

W: China is becoming more industrialized. More factories are being built, more electricity is needed, and air pollution often comes from coal-fired power stations. Of course, more people are driving cars.

M: So what can be done?

W: Chinese authorities are spending £180 billion on cleaning up the air. They're closing down many power stations within the city that burn coal. That's the biggest source of pollution. And they also limit traffic on the roads. Greener cars will be allowed on the roads. China is also going to use more renewable energy.

M: Well, of course, all these changes will take a long time. Oh, I nearly forgot. You didn't tell me the answer to the question about which country has the city with the world's worst air pollution. I thought it was China.

W: The answer is Iran.

M: Oh.

Section C

In this section, you will hear five short news items. Each item will be read only once. After each item, there will be a fifteen-second pause. During the pause, read the question and the four choices marked A, B, C and D, and decide which is the best answer. Then mark the corresponding letter on the answer sheet with a single line through the centre.

16. According to Business Insider, "Most people get a little down in the winter. Although doctors estimate that only 1-2% of the population suffers from the seasonal depression, everyone can tend to feel a little less optimistic this time of year." Spending time with friends and being outside when the sun is out is a great way to fight it.

17. China's economic growth beat forecasts to reach 6.9 percent year-on-year in 2017, which was higher than

- the preset growth target of around 6.5 percent for 2017, marking the first acceleration since 2010 despite financial regulatory tightening and measures against pollution. Analysts said as growth stabilizes, the country will strengthen regulations and reforms to pursue high-quality development.
18. According to The Japan Times, the organizers of the Tokyo 2020 Olympics plan to use face recognition software at the Games. The software will scan and track the faces of hundreds of thousands of athletes, journalists, and officials. According to sources, the technology won't be used on spectators. The organizers hope that face recognition is both a faster and more secure way of moving people issued official ID cards through entrances.
 19. To honour the Chinese Lunar New Year, Canada Post has issued a pair of stamps to mark the Year of the Dog. The stamps contain Chinese lanterns as a central design element, with red and gold dominating the colour schemes. The domestic-rate stamp features a small dog that appears ready to rush headlong into the year ahead, while the international-rate stamp shows a larger dog with one paw raised in anticipation.
 20. Temperatures in the remote Russian region of Yakutia plunged to -67°C in some areas. In Yakutia students routinely go to school in -40°C, and school was canceled throughout the region. Local police ordered parents to keep their children at home. Over the weekend, two men froze to death when they tried to walk to a nearby farm after their car broke down.

Section D

In this section, you will hear two short passages. The passages will be read twice. After each passage, there will be a thirty-second pause. During the pause, write the answers on the answer sheet.

Dictation

Listen to the passage. For questions 21—25, fill in the blanks with the exact words or phrases you hear.

Bluetooth technology is a method of enabling short-range communication between devices. For example, computers can connect to other computers, headsets can connect to cell phones, and headphones can connect to MP3 or MP4 players, all without wires.

In the past, wireless communication devices were too large and expensive for common use. However, there have been a lot of rapid advances in miniaturization recently. Also, more efficient forms of mass production are now possible. Both of these developments have led to the use of Bluetooth technology in a wide range of common items. Inventors are constantly investigating new ways of involving it in day-to-day life. This has resulted in the creation of a Bluetooth luggage tag.

The Bluetooth luggage tag is called The Bluebird. It is designed to notify a traveller that their bag is in close range. This makes it possible for them to know when their luggage is coming down the airport conveyor belt. It will also flash to make it easier for the person to identify his bag and will help him track multiple bags, preventing a bag being left behind by mistake.

The Bluebird also stores large amounts of information, enabling authorities to identify who the luggage belongs to simply by scanning it from Bluetooth enabled computers. Hopefully, this will mean that the age-old problem of airlines losing people's luggage is finally over.

Summary

Listen to the passage. For questions 26—30, complete the notes using no more than three words for each blank.

Researchers say that people will feel uncomfortable if they are too close or too distant from one another. The distance from others that decides a person's level of comfort is called "interpersonal distance." Interpersonal distance varies with culture and gender. For example, women feel more comfortable at a closer distance to their friends than men, but they keep their distance from strangers.

Researchers mention four important interpersonal distances for social interactions: intimate, personal, social and public. Intimate distance is up to 1.5 feet. Vision is minimal and more private, so people can rely on their sense of smell and touch. Comforting someone and hugging someone are examples of intimate activity which allows intimate distance. In personal distance, touch is minimal and hearing as well as vision is important. At this distance people interact with their friends and chat. Close friends will be in the inner limits and we allow strangers in the outer limit.

Social distance is what we call "formal" interaction. The space for this type of distance is from 4 to 12 feet, which means it requires quite a bit of space. Interviews for employment and negotiating in a business situation would be this type. The last one, public distance refers to actors, politicians and public speakers who communicate one way. This includes distance of more than 12 feet. However, at distances beyond 25 feet, it is impossible to interact interpersonally.

This is the end of the listening part. Please transfer your answers to the answer sheet.

很多同学在备考大英赛时常有一种无力感，因为大英赛不像其他的英语考试，它范围广、题量大、获奖排名制。这就使大家在备考大英赛时没有头绪。

该从哪儿学起？该学什么内容？该怎么准备考试？

针对这些问题，英伽教育经过多年的课程迭代更新，为大家制定了一套完美的备考方案。

大英赛全程班

【学、练、测、评、答】五个维度助力获奖

【学】共 150H 的课程，覆盖各题型知识点和技巧

【练】每次课后打卡练习，巩固当天所学知识内容

【测】三次考前模拟测试查漏补缺，检验学习成果

【评】为三次模考提供翻译和写作的人工评阅服务

【答】特等奖助教每天群内答疑，一直持续到考前

可以看到咱们的课程解决了自己备考的弊端，帮助大家解决学什么、学了怎么用、学完有什么效果、不会的怎么办等问题，绝对比自己备考更高效。

觉得自己难以坚持，不知道该从哪儿学起的话，可以选择咱们的全程班，跟随课程学习哦~

英伽教育
备战2023年
大英赛全程班
五大课程模块全场景教学 六项课后服务全能陪伴

- 五步阶梯 登顶获奖 -

- 学** 150小时课程时长，七大题型技巧详解
- 练** 七十余次课后练习，学有所得熟练运用
- 测** 入门测试了解短板，考前模拟查漏补缺
- 答** 特等奖助教群内答疑，有问必答解决难题
- 评** 模考写译人工批改，重点突破稳拿高分

售价：499元
