Part I

Listening Comprehension

(30 marks)

Section A

1. Excuse me, madam. I'm looking for the National Journal of Environmental Science, but I just can't seem to find it.
 OK, well, have you looked on the shelves?
 Yeah, I've looked up and down. I didn't see it at all.
 Maybe it's checked out. Let me look it up, the National Journal of Environmental Science, right? Sorry, we don't have it.
 Really? I need an article from it to use in a research paper.

Question What problem does the man have?

B 【解析】 题目问男士遇到的问题。对话中,男士想找到美国国家环境科学杂志来辅助写作,但是女士没找到这本书。故选 B。

2. Have you thought about working abroad when you get your degree?
 Not really, but we may have to. Lots of people are deciding not to go to university but go straight into the job market just to get a foot on the ladder. They do say that those who have been to university earn more overall.
 I'm seriously thinking of giving it a try. Not necessarily because I can't find anything here, but for the experience. I'd like to get to know a different culture by being more a part of it than just a tourist. In fact, I've already started looking.
 Really? Just think what it involves. You'll have to learn a new language. You won't know anybody, and you'll have to find somewhere to live. It's like starting from scratch. Are you prepared for that? I'm not sure I am.

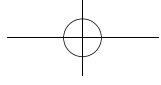

Question What is the woman thinking of doing after graduation?

A 【解析】 题目问女士毕业后想做的事。对话开头女士问男士是否想过毕业后去国外工作,男士回答没这种打算,但是很多人选择不去大学而是直接进入职场。女士接着说她正在认真考虑去国外工作这件事。故选 A。

3. Did you see the documentary on the history of radio last night?
 Yes, I did. I thought it was quite interesting.
 I liked that they portrayed radio in the 1930s as the Internet of its day. It really wasn't it...I mean, if you just imagine how we got information before radio and television, radio really was a revolution. It also brought people together, just like the Internet today. But I think they left out too much important information. They went on and on about Marconi, but where was the technical information, and what about the scientists from other countries?
 Well, perhaps the producers thought it might be better to take a different approach. It was aimed at the general public, probably younger people who wouldn't need to know too much detail. I think its viewers would be more interested in how radio put people in contact with one another. I think they have made it.

Question Which aspect of early radio do they agree on?

C 【解析】 题目问说话双方就早期广播的哪方面内容达成了一致。女士问男士是否看了关于广播历史的纪录片,男士肯定回答并表示内容很有趣。女士接着说她喜欢纪录片中对广播的描绘部分,它把人们聚集在一起,是一场真的革命。这说明说话双方对广播的史实报道都是持赞成态度的。故选 C。

4. **M** Hi, Mary. You came by bike, I see. You must be crazy. You're taking your life in your hands when you cycle in the city.

W It's not so bad. I know the accidents get a lot of press, but it's not as dangerous as they say. It'll be even better when they get all the new bicycle lanes done, and I can ride anywhere in town without worrying about some driver knocking me down and claiming he didn't see me. You should try it: it's the best way to get about town. You can get to places much quicker; no waiting for buses, avoiding traffic jams, and it keeps you fit and healthy. It would be a much better place to live if everyone cycled. We'd have a pollution-free city with a healthy population.

M You do paint a rosy picture but I think it will just create more problems. To create the bicycle lanes they have to narrow the roads, causing much more traffic jams. And anyway, you'll never get most people to give up their cars.

Question What does the man think cycling in the city?

A 【解析】 题目问男士对于在市区骑车的看法。对话中当男士看到女士在市区骑车时,说对方一定是疯了,这就是在冒险玩命。所以,男士认为在市区骑车是一件很危险的事。故选 A。

5. **W** So, what about the summer...any plans?

M Yes, I have, actually. I've just got a job teaching English in a summer school. I'm really excited about it—they have students from all over the world, which will be great experience for me.

W Yeah but...you mean they travel all the way here just to have English lessons? That must cost a lot. Don't they have English teachers in their own country?

M I'm sure they do, but this school does something different. Their course offers up to six hours' varied lessons every day. They can get intensive lessons in their own country but they'll still go home and speak their own language. Here, they learn English even in their free time...trips they go on, television they watch, conversations they have...all in English. I think it's a great way for them to improve.

W That makes perfect sense. I can see you've made a good decision.

Question What does the woman learn from the man's explanation?

C 【解析】 题目问女士从男士的解释中能得知什么。男士表示在暑假的英语课程中,学生除了上课用英语之外,空闲时间也都是用英语交流的,包括旅行、看电视、聊天等等,这些都是提高英语的好方法。故选 C。

(6) This day could be anywhere, at any given time, with anyone, but I'd especially like to be with my family.

M Have you always wanted to compete professionally?

W Well, when I first started riding I don't think that I imagined taking snowboarding this far down the road, to where I'm standing today. I think I would have liked the idea, but it never crossed my mind.

M What's the most exciting moment you've had on your board?

W (7) When I was showing the guys up on a kicker, hitting it before all of them, and overshot it with my speed, knowing while flying through the air, my landing wasn't going to be OK, and I just crashed to the ground, and ambulance later, I was OK!

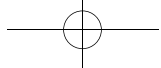

M What's your ultimate goal in the sport?

W (8) To work hard and always have fun.

M How do you feel about all the travelling involved in World Cup competitions?

W It feels very normal, actually. (9) I have been travelling since I was a child and leaving my home life behind is something I've got used to.

M (10) I know you've come from a pretty extraordinary and active family. What was it like to grow up in your

family?

- W (10) Growing up with four elder brothers was, and still is, a major privilege of mine. They made me super tough at a young age.

Conversation Two

M Hello, Mary.

W Hello, Professor Maxwell. I have a problem and ask if you could give me some suggestions.

M Sure. What's the matter?

W (11) I want to teach after I graduate, but I'm a little concerned because I haven't had any first-hand experience. I want to learn to plan interesting lessons so that the students can enjoy getting their education.

M Oh, I don't think you need to worry too much. You're an excellent student, and you've shown a lot of promise in all of my classes. I'm sure you'll be a wonderful teacher.

W Still, I'd really like to have the opportunity to try teaching in a controlled setting before I graduate, and get a job where I'm expected to run the class. I think it could be helpful for me to have someone else give me tips and ideas on how to improve.

M Well, I suppose that's understandable. (12) I'll tell you what, we may be able to do something next semester. What would you think of doing an independent study course? (13) You could assist me with one of the low level classes, and get some experience.

W That would be great. What would I do exactly?

M You'll get to observe how I handle different situations, grade papers, make tests, and assist me in teaching. Then, toward the end of the semester, I'll permit you to teach several classes on your own. You can design the entire lesson and decide what kind of homework the students will have.

W I'm afraid I wouldn't have enough time for it. I have a pretty full schedule next semester. I'm taking a full course load, and I have to work part-time, too. (14) I'm involved with a couple of volunteer organizations that take up some of my free time.

M It does sound like you're busy. But at least consider it. I really think that an independent study course would allow you to try out your teaching skills and learn a lot. (15) I took a similar course when I was an undergraduate, and it proved invaluable. I really depended upon what I'd learned when I got my first teaching job.

W Well, I'll definitely think about it. Thank you, professor.

Section D

Dictation

A trip to France is definitely not complete without visiting the tallest structure in all of France—the Eiffel Tower.

Located in Paris, this iron tower is 324 metres high and weighs about 10,000 tons. However, the size isn't the characteristic that makes the tower (21) unique. The design is. The curved design of the tower shocked most people when it was built for the 1889 International Exhibition. No one had ever designed a building shaped like that, but Gustave Eiffel, a French structural engineer, architect, and master metal worker, wasn't like everyone else. He planned the lower around the wind patterns in Paris. He added lots of curves to the structure to accommodate the wind. When the Eiffel Tower was completed, it was the tallest tower in the world and (22) remained so until 1930, when New York City constructed a taller building.

Eiffel started his career by studying literature and history in high school, but he wasn't (23) accepted into the most prestigious engineering school in France. Instead, he took a job working for a construction company that built railway bridges. Over time, he (24) developed a reputation as a creative architect, and he was awarded bigger and bigger projects.

2022 年决赛试题

Eiffel designed more than the Eiffel Tower. He designed the Statue of Liberty for the United States in 1886 and the San Sebastian Church located in the Philippines. This church is the only steel church in all of Asia and is considered (25) a historical landmark.

Summary

The appeal of living in a different country attracts millions of people every year. When they find a place they love or that has better economic opportunities than their home country, they often emigrate.

People emigrate for other reasons as well. The reasons fit into two general categories: push factors and pull factors. The push factors are the motives to leave their country. The pull factors are the motives to live in another country. (26) Some common push factors are war, poverty, natural disasters such as floods or droughts, and marriages.

(27) Some common pull factors are better education, more job opportunities, nicer climate, and lower costs of living.

No matter why a person has immigrated, (28) they may face challenges in their new country: trouble finding a job, language difficulties, a lack of knowledge about the laws, (29) cross-cultural misunderstanding, and even racism.

When large numbers of people immigrate, it can cause problems to the host country. If too many immigrants are unemployed, the host country might not be able to support them. On the other hand, if too many highly educated people leave a country, which is called “brain drain”, the home country might not have enough doctors or scientists to support its population.

Immigration has positive effects, too. (30) It increases cultural diversity, and it increases the population in countries such as Canada and New Zealand.

句式分析

1. 第一句中的 suggest 为熟词生意,意为“表明”,其后跟着一个 that 引导的宾语从句,其中 be interested in 为固定搭配,意为“对……感兴趣”。
2. 第四句是翻译难点。generation 后跟着 that 引导的限制性定语从句,对 generation 进行限制和修饰,翻译时应将其放在 generation 前;it's not surprising that...是句型 it's + adj. + that...的使用,其中 it 是形式主语,真正的主语是 that 引导的从句,翻译时前置,其中“see...as...”为固定搭配,意为“把……看作……”。

72. The mascot for the Beijing Winter Olympics, Bing Dwen Dwen, has enjoyed an increasing rise in popularity. Some say the mascot has become the best ambassador for the Beijing Winter Olympics. The popularity stems

mainly from its cute appearance. Its shape combines the image of a panda with an ice crystal shell. The design, full of modernity and technology, conveys the charm of China and expresses the beauty of the Olympic Games.

句式分析

1. 第一句“吉祥物”为“mascot”;其中冬奥吉祥物和冰墩墩之间是同位语关系,可以直接写出进行说明;“人气越来越高”可使用常用搭配“enjoy popularity”,越来越可用高频词“increasing”;由于冰墩墩受欢迎这一状态可能会持续下去,应用现在完成时。

2. 最后一句主语为“该设计”,谓语动词为“传达”和“展现”,可使用 and 引导的并列句。“充满了现代和科技”翻译成定语,修饰“该设计”,可以用定语从句也可以使用介词短语进行修饰,其中“充满”为固定搭配,为 be full of,作定语时,省略 be 动词。

73. CU EV

解析 题干要求按照一定的顺序填出消失的字母。已知的左边字母 A、G、I、K 分别位于字母表的第 1、第 7、第 9 和第 11,所以判断左边字母依次相隔 1 个字母,所以缺失的第一个和第二个单词左边字母分别为 C 和 E;右边的字母 T、W、X、Y 分别位于字母表的第 20、23、24、25,根据后面三个单词,可以发现依次为相邻字母,所以缺失的第一个和第二个字母右边单词分别为 U 和 V。所以答案为 CU 和 EV。

74. fare climb

解析 题干要求在第一个单词中去掉一个字母并将其添加到第二个单词中,以形成两个词。本题可以用排除法,先从第一个单词中抽取字母,和第二个字母组合进行匹配,很容易发现只有第一个单词 farce 中的 c 与 limb 组合,形成了 climb,意为“爬”;而第一个词成了 fare,意为“票价,费用”。故答案为 fare 和 climb。

75. 尽最大努力/竭尽全力

解析 题干要求写出画线俗语的中文意思。根据句意“我想要整个队伍今天中午付出百分百,这样才能有望进入决赛”,可知其意为“尽最大努力/竭尽全力”。

76.

S	T	A	I	E
U		W		V
P	E	A	C	E
E		I		N
R	A	T	E	S

解析 题干要求把所给单词填入方框完成字谜游戏。由于方框中所给的提示单词是 e,处于第 5 列的第三个位置,第三行的最后一个位置,所给单词中含 e 并符合两个坐标的第三行只有填入 peace,最后一列只有填入 evens,填完后根据其提示依次填入其他适合单词。答案见方框。

77. D

解析 题干要求选出一个与最后一个模式匹配的选项。分析所给的图形和字母可知,U 代表方框的个数为 3,L 代表条纹方框,W 代表方框的个数为 2,V 代表方框的个数为 1,M 代表空白方框,N 代表黑色方

框。所以左边的字母代表方框的个数,右边字母代表方框的类型。由于最后一个图形是 2 个黑色方框,所以相对应的字母是 WN,故选 D。

78. **解析** 该句的意思是“想想今天普通年轻人的生活方式”,“考虑、思考、想想”的固定表达为“think about”,所以在 think 后添加 about。

79. **解析** 该句的意思是“醒来后,也许你冲到电脑前检查电子邮件,看看你最喜欢的社交网站上发生了什么”,此处是在预设一种情况,而不是陈述过去发生的事情,应使用一般现在时,而 rushed 为过去时,所以将 rushed 改为 rush。

80. **解析** 该句的意思是“晚上你必须学习才能保持好成绩”,“在晚上”的固定表达为“at night”或者“in the evening”,所以删去多余的 the。

81. **解析** 该句的意思是“年轻人的饮食也是一个问题,因为他们没有时间吃得好”。根据句意可知,后一句是表明原因,而不是结果,所以将 so 改为 because。
82. **解析** 该句的意思是“他们并没有吃许多新鲜蔬果的均衡饮食,相反,他们吃汉堡包和薯条”,of 是介词,其后的动词要用动词的-ing 形式,而 eat 为动词原形,所以将 eat 改为 eating。
83. **解析** 该句的意思是“他们并没有吃许多新鲜蔬果的均衡饮食,相反,他们吃汉堡包和薯条”,and 连接相同成分,且 and 前的“汉堡包”用了复数形式,根据平行原则,and 后的“薯条”也应该用复数形式,所以将 fry 改为 fries。
84. **解析** 该句的意思是“许多其他国家的人们也遭受着体重问题”,suffer from 是固定搭配,意为“遭受,忍受”,所以将 of 改为 from。
85. **解析** 该句的意思是“不幸地是,很多健康问题和增加体重有关”,be associated with 是固定搭配,意为“与……有关,与……有联系”,所以将 to 改为 with。
86. **解析** 该句的意思是“超重、肥胖都会增加你患上心脏病、糖尿病、癌症和呼吸疾病的可能性”,此处主语是 being overweight or obese,为动名词作主语,其谓语动词应用第三人称单数,所以将 increase 改为 increases。
87. **解析** 该句的意思是“解决体重有关的健康问题是很简单的:健康饮食和每天锻炼”,diet 为名词,应用形容词修饰名词,而此处的 health 为名词,应使用形容词词性,所以将 health 改为 healthy。

What Australians Save Money for

Everyone saves money for different purposes. It's clearly demonstrated what Australians save money for in this picture.

It is apparent that almost half Australians save money for house and vacation, accounting for 48% and 47% respectively. Closely following that is the money saved for emergency fund, about 33%. Australians save money for a car, education and furniture varying from 13% to 8%. However, the number of Australians save money for a wedding and a new computer reaches at a low point, namely 5% and 4%.

From these data mentioned above, there's no wonder that Australians save money out of their own needs and purposes. Among these various purposes, there is a trend that most people prefer to save money for house and vacation, which is closely related to their sense of belonging and relaxation mentally and physically in such a competitive society.

My View on Employment

When it comes to employment, people always hold a variety of opinions. Some people strongly believe that job seekers should take the initiative to get a job. Although sometimes it's true that no jobs available, they should be doing something constructive with their time. As far as I'm aware, I do reach a consensus with the point of view.

As an old saying goes, the chance favors the prepared, which means people should take the initiative to be prepared for what will happen. It's true of seeking jobs. During the job seeking process, successful people always take active actions to find an ideal job, whether in searching for information or contacting with employers, which undoubtedly contributes to his success. Compared with them, those passive job seekers who are sitting around waiting for the perfect job to come along but get nothing at last. Even if there's no job available at the moment, job seekers ought to spend their time meaningfully and constructively, applying themselves to improving their own value. Only in this way can they take a lead in job markets and are more likely employed.

To sum up, if they don't want to be unemployed in the competitive society, job seekers have to take the initiative to get a job.
