Part I Listening Comprehension

Section A

*In this section, you will hear **five** short conversations. Each conversation will be read only **once**. At the end of each conversation, one question will be asked, and you have **fifteen seconds** to read the **four** choices marked **A, B, C** and **D**, and decide which is the best answer. Then mark the corresponding letter on the **answer sheet** with a single line through the centre.*

1. **W:** Is Techstore far from here?

M: No, not at all. Just walk up two blocks from here, take a left and then a right. It's on your left. You can't miss it!

W: Thanks!

Question: Which route should the woman take?

2. **W:** I'm going to Kennedy International Airport. How much does it cost?

M: It's fifty cents per mile. I think the airport is about ten or eleven dollars.

W: Why is it higher?

M: Well, there's a two-dollar surcharge for trips during peak hours. And we'll probably sit in traffic for a few minutes as well. That'll be fifty cents twelve miles.

Question: Why will the fare be higher than the woman expected?

3. **W:** It's taking me ages to translate this document! There're so many unknown French words that I have to look them up in my dictionary.

M: Why don't you use an online translator?

W: Unfortunately, I don't have Internet connection.

M: Don't worry. It won't be long before the program is developed to allow your cell phone to speak any language.

Question: What is the woman using to translate the document?

4. **M:** Good afternoon. I need to cancel my flight reservation.

W: Can you tell me your flight number, sir?

M: Yes. It's 4630-Z.

W: OK. The reservation is for a first class ticket from Chicago to New York. Are you Greg Collins?

M: Yes, I am. The conference I was supposed to attend has been canceled.

Question: What is the conversation mostly about?

5. **W:** Marvin, over here!

M: Hi, Sue! How was your flight?

W: It was OK, but I'm starving. I couldn't eat on the plane.

M: Tell me about it. The last time I flew, the chicken they served was so undercooked!

W: Well, that wasn't the issue for me. I ordered the vegetarian meal. It was pasta with cheese sauce.

M: That sounds all right.

W: Yeah, it would have been if I could eat dairy. All I ate in the end was the small side salad.

Question: Why didn't Sue eat the meal on the plane?

Section B

*In this section, you will hear **two** long conversations. Each conversation will be read only **once**. At the end of each conversation, there will be a **one-minute** pause.*

Conversation One

*Listen to the conversation. And read the **four** choices marked **A**, **B**, **C** and **D**, and decide which is the best answer according to what you hear. Then mark the corresponding letter on the **answer sheet** with a single line through the centre.*

W: So, Tiago, I know you're Portuguese, but where are you from exactly?

M: My hometown is Evora. It's a very old city and it has a beautiful historic centre.

W: It sounds lovely. Is it near the sea like St. Ives?

M: No, it isn't. It's about 130 kilometres inland from the capital, Lisbon, so there aren't any beaches.

W: OK. Do you have any photos of Evora?

M: Yes, I do. Actually I have this postcard. Let me show you.

W: Wow, the buildings are really beautiful.

M: Yes. In the middle of the city there's a square. It's in the first photo on the postcard. There's a tourist information centre on the square. There're also cafés and shops all around the square. It's my favourite place to meet friends.

W: What's the building in the second photo?

M: That's the Cathedral of Evora. That's the view from above.

W: It looks fantastic!

M: Yes. I think Evora is the perfect place for history lovers, because there's also a Roman Temple and a university. They're in the other two photos on the postcard. The university is very old and popular, and there're lots of students in the town.

W: Is it a good city for tourists?

M: Of course, it is. There're over 50 hotels in Evora, and it's easy to find somewhere to stay. There're also

hundreds of restaurants where you can find amazing traditional Portuguese food.

Conversation Two

*Listen to the conversation and complete the sentences with **one word** according to what you hear. Then write the answers on the **answer sheet**.*

W: I can't believe I haven't seen you for a year, Steve! How was the trip?

M: It was amazing!

W: So, did you travel around the world with only one flight?

M: Yes, I did! For the first part, we took a boat from the UK to Norway. Then we travelled through Scandinavia by train. We didn't stay there very long as it was really expensive! It was beautiful, though.

W: Where did you go next?

M: We took an overnight train to St. Petersburg in Russia and stayed there for a few days before going to Moscow. Then we travelled to Mongolia, where I ate meat for the first time in years!

W: What did you think of China?

M: I really liked it! We visited lots of historical places such as the Great Wall and the Forbidden City. After China, we travelled around Vietnam, Thailand and India by train. We spent a month in India before we flew to Australia.

W: How did you get back to the UK?

M: I took a boat. We spent a whole month at sea and we didn't see land. It was quite difficult, but much better for the environment.

Section C

*In this section, you will hear **five** short news items. Each item will be read only **once**. After each item, there will be a **fifteen-second** pause. During the pause, read the question and the **four** choices marked **A**, **B**, **C** and **D**, and decide which is the best answer. Then mark the corresponding letter on the **answer sheet** with a single line through the centre.*

16. New research has revealed that a huge meteorite first discovered in 2014 caused a tsunami bigger than any in known human history and boiled the oceans. The vast space rock crashed into what is now South Africa when Earth was in its infancy 3 billion years ago. It caused devastation, but also helped early life on the planet.
17. The Notre Dame Cathedral in Paris took 182 years to build between the 12th and 14th centuries. The Roman Catholic religious center is considered a jewel of Gothic building design, a symbol of Paris and is a popular site to visit. It had been badly damaged in a fire in 2019. Notre Dame Cathedral is set to reopen to the public Sunday after a five-year-long rebuilding project.
18. A study suggests that the possible health benefits of coffee depend on what time of day you drink it. The results show that, over the 10 years, those who habitually drank coffee in the morning were 16 percent

less likely to have died than people who drank no coffee. Those who drank coffee throughout the day, however, didn't enjoy any similar reduction in risk. The researchers said the cause of the difference wasn't immediately clear.

19. The Nobel memorial prize in economics was awarded to three economists who have studied why some countries are rich and others poor and have documented that freer, open societies are more likely to prosper. Their work demonstrated the importance of societal institutions for a country's prosperity.
20. Paris has introduced a ban on traffic travelling through the heart of the French capital. It's part of the Mayor's plan to cut congestion and pollution. A 5.5 square kilometre area covering four districts will be off limits to drivers unless they can prove they have valid reasons to use the roads. Paris's police chief has promised light enforcement of the new rules for six months.

Section D

*In this section, you will hear **one** monologue. The monologue will be read **twice**. After listening, answer the questions using **no more than five** words. Write the answers on the **answer sheet**.*

W: Mark had a good job and he earned a lot of money. One day, a friend challenged him to live without money for three years. Mark decided he could change his life and do it.

First, he sold his houseboat, and he went to live in a caravan on a farm. He kept his laptop and mobile — he knew he could use solar power to charge them. He couldn't make any calls, but he could receive them.

The first few months were the worst — simple things were more difficult than before. Mark couldn't buy food, have a shower or travel easily. But he soon found his own food — usually vegetables, fruit and other plants. He made a stove to cook outside and collected wood to use as fuel. He washed in a river and used plants to clean himself. He even made his own toothpaste! He walked or cycled everywhere, so he was fitter and healthier than he was before.

So, was life without money better for Mark than life with money? Yes, it was. He was happier than before, and the best thing was that he felt more alive. He also discovered that friendship is more important than money.

The biggest and most difficult decision for Mark was returning to a life with money. After three years without money, what was the first thing he bought? A pair of trainers from a charity shop!

This is the end of the listening part. Please transfer your answers to the answer sheet.
